#### **INDEPENDENT AUDITOR'S REPORT**

Board of Directors Douglas County School District No. 19 Myrtle Creek, Oregon

#### Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities and each major fund of Douglas County School District No. 19 (the District), as of and for the year ended June 30, 2013, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

#### Management's Responsibility for the Financial Statements

Management is responsible for the presentation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

#### Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

Board of Directors Douglas County School District No. 19 Myrtle Creek, Oregon

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

#### Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities and each major fund information of the District as of June 30, 2013, and the respective changes in financial position for the year then ended in accordance with accounting principles generally accepted in the United States of America.

#### **Other Matters**

#### **Required Supplementary Information**

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, the schedule of funding progress (other postemployment benefits), and the General and major Special Revenue governmental funds budgetary comparison information as listed in the table of contents be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We applied certain limited procedures to management's discussion and analysis, and the schedule of funding progress (other postemployment benefits) in accordance with auditing standards generally accepted in the United States of America, which consisted of inquires of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries. the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on management's discussion and analysis and the schedule of funding progress (other postemployment benefits) because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance. The General and major Special Revenue governmental funds budgetary comparison information is the responsibility of management and was derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the General and major Special Revenue governmental funds budgetary comparison information is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

#### Other Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The other supplementary information listed in the table of contents is presented for purposes of additional analysis and are not required as part of the basic financial statements. The schedule of expenditures of federal awards is presented for purposes of additional analysis as required by U.S. Office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*, and is also not a required part of the basic financial statements.

Board of Directors Douglas County School District No. 19 Myrtle Creek, Oregon

Other Supplementary Information (Continued)

The other supplementary information and schedule of expenditures of federal awards are the responsibility of management and were derived from, and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements, and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the other supplementary information and schedule of expenditures of federal awards are fairly stated in all material respects in relation to the basic financial statements as a whole.

#### Other Reporting Required by Government Auditing Standards and Oregon State Regulations

In accordance with *Government Auditing Standards*, we have also issued our report dated December 27, 2013 on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control over financial reporting and compliance.

In accordance with Oregon State Regulation, we have also issued our report dated December 27, 2013 on our consideration of the District's compliance with certain provisions of laws, regulations, contracts, and grants, including the provisions of Oregon Revised Statutes (ORS) as specified in Oregon Administrative Rules 162-10-000 through 162-10-320 of the Minimum Standards for Audits of Oregon Municipal Corporations. The purpose of that report is to describe the scope of our testing necessary to address the required provisions of ORS, and not to provide an opinion on compliance with such provisions.

Michael L. Piels CPAs, LLP Medford, Oregon December 27, 2013

As management of the Douglas County School District #19 (District), we offer readers of the District's financial statements this narrative overview and analysis of the financial activities of the District for the fiscal year ended June 30, 2013. We encourage readers to consider the information presented here in conjunction with the District's financial statements, which immediately follow this section.

### **Financial Highlights**

- The District's financial status reflects a decrease in government-wide net position for the 2013 fiscal year. Overall, net position decreased by \$1,126,521 or 27% from the previous year.
- General revenues accounted for \$10.73 million in revenue, or 81.97% of all fiscal year revenues. Program specific revenues in the form of charges for services, grants and donations accounted for \$2.36 million or 18.03% of total fiscal 2013 revenues.
- The District had approximately \$14.22 million in expenses related to governmental activities; of which \$2.36 million were expenses offset by program specific charges for services, grants and donations. General revenues of \$10.73 million were inadequate to provide for the remaining costs of these programs and services causing a need to draw from other resources to cover the deficit which in turn accounts for the decrease in net position.
- The General Fund had \$10.83 million in fiscal year 2013 revenues, which primarily consisted of state school support and property taxes. Expenditures totaled \$11.17 million. The General Fund's fund balance, before interfund transfers, decreased \$337,139 from the previous year.
- The Special Revenue Fund, a District major fund, had \$2.22 million in fiscal year 2013 revenues and \$2.19 million in expenditures.
- The Debt Service Fund, another District major fund, had \$1.01 million in fiscal year 2013 revenues and \$1.49 million in expenditures before interfund transfers.
- The Capital Projects Fund is the last District major fund. It had revenues of \$28 for fiscal year 2013 and \$202,666 in expenditures before interfund transfers.
- The District's total long-term debt decreased by \$739,829 during the current fiscal year.

#### **Overview of the Financial Statements**

This annual report consists of three parts: management's discussion and analysis (this section), the basic financial statements, and required supplementary information. The basic financial statements comprise three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

Figure A-1 summarizes the major features of the District's financial statements, including the portion of the District's activities they cover and the types of information they contain. The remainder of this overview section of management's discussion and analysis highlights the structure and contents of each of the statements.

#### Figure A-1: Major Features of the Government-Wide Fund Financial Statements

	Government-Wide Statements	Fund Financial Statements						
		Governmental Funds	Proprietary Funds	Fiduciary Funds				
Scope	Entire district (except fiduciary funds)	The activities of the district not proprietary or fiduciary, such as special education and building maintenance.	Activities the district operates similar to private businesses	Instances in which the district administers resources on behalf of someone else, such as scholarship programs and student activities monies.				
Required financial statements	* Statement of net position * Statement of activities	* Balance Sheet * Statement of revenues, expenditures, and changes in fund balances	* Statement of net position *Statement of cash flows	* Statement of fiduciary net position *Statement of changes in fiduciary net position				
Accounting Basis and measurement focus	Accrual accounting and economic resources focus	Modified accrual accounting and current financial focus	Accrual accounting and economic resources focus	Accrual accounting and economic resources focus				

Type of asset/ liability informa- tion	All assets and liabilities, both financial and capital, short-term and long-term	Generally assets expected to be used up and liabilities that come due during the year or soon thereafter; no capital assets or long- term liabilities included	All assets and liabilities, both financial and capital, and short-term and long-term	All assets and liabilities, both short- term and long-term; funds do not currently contain capital assets, although they can
Type of inflow/out flow information	All revenues and expenses during year, regardless of when cash is received or paid	Revenues for which cash is received during or soon after the end of the year; expenditures when goods or services have been received and the related liability is due and payable	All revenues and expenses during the year, regardless of when cash is received or paid	All additions and deductions during the year, regardless of when cash is received or paid

#### **Government-wide Financial Statements**

The government-wide financial statements are designed to provide readers with a broad overview of the District's finances, in a manner similar to a private-sector business. The statement of net position includes all of the District's assets and liabilities. All of the current year's revenues and expenses are accounted for in the statement of activities regardless of when cash is received or paid.

The two government-wide financial statements report the District's *net position* and how they have changed. Net position, the difference between the District's assets and liabilities, is one way to measure the District's financial health or position.

Over time, increases or decreases in the District's net position are an indicator of whether its financial position is improving or deteriorating, respectively.

To assess the District's overall health, you need to consider additional non-financial factors such as changes in the District's enrollment, which dictates the majority of revenue to be collected through the State Funding Formula, and the condition of school buildings and other facilities.

The statement of activities presents information showing the District's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused compensated absences).

The government-wide financial statements outline functions of the District that are principally supported by intergovernmental revenues (*State School Support*) and property tax revenues. The governmental activities of the District include instruction, instructional support services, operation and maintenance of plant facilities and services, student transportation, and non-instructional support services. The government-wide financial statements can be found on pages 1-2 of this report.

#### Fund Financial Statements

A <u>fund</u> is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The District uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the District can be divided into two categories: governmental funds and fiduciary funds.

Governmental funds. Governmental funds are used essentially to account for the ongoing activities of government that are financed with general government revenues in the form of taxes, license fees, grants and entitlements. They are also used to record the acquisition of general governmental assets. However, unlike the government-wide financial statements, governmental fund financial statements focus on short-term inflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating the District's short-term financial requirements. Statements tell how basic services such as regular and special education were financed in the short term as well as what remains for future spending.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the District's short-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities. These reconciliations are on pages 4 and 6, respectively.

The District maintains four individual governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures, and changes in fund balances for the General Fund, Special Revenue Fund, Debt Service Fund, and Capital Projects Fund, which are all considered major funds. The basic governmental fund financial statements can be found on pages 3 and 5 of this report.

*Fiduciary funds.* Fiduciary funds are used to account for assets held by the District as trustee or agent. Each trust fund is treated for accounting measurement purposes in a manner similar to either a governmental fund or a proprietary fund. Expendable trust funds are accounted for in essentially the same manner as governmental funds. Nonexpendable trust funds and pension trust funds are accounted for in essentially the same manner as proprietary funds. Agency funds are purely custodial (assets equal liabilities) and thus do not involve measurements of results of operations.

Fiduciary funds are *not* reflected in the government-wide financial statements because the resources of these funds are *not* available to support the District's own programs. The accrual basis of accounting is used for fiduciary funds. The District closed out all of its fiduciary funds during the previous fiscal year.

#### **Notes to the Financial Statements**

The financial statements also include notes that explain some of the information in the statements and provide more detailed data. This information is essential to a full understanding of the data provided in this report. The notes to the financial statements can be found on pages 7 - 30 of this report.

#### Other information

In addition to the basic financial statements and accompanying notes, this report also presents certain *required supplementary information* that further explains and supports the financial statements with a comparison of the District's budget for the General Fund and the major Special Revenue Fund. Figure A-1 shows how the various parts of this annual report are arranged and related to one another. The required supplementary information can be found on pages 31 - 33 of this report.

Additionally, other major fund budget comparisons for the Debt Service Fund and Capital Projects Fund not required to be presented are included for further clarity and understanding. These fund schedules can be found on pages 34 and 35 of this report.

#### **Government-Wide Financial Analysis**

The District's combined net position reflects a decrease of approximately 27% as of June 30, 2013. This decrease is primarily due to reduced income from the State and Federal governments combined with a slight increase in spending during the current year.

By far the largest portion of the District's net position is reflected in its investment in capital assets (e.g., land and improvements, buildings and improvements, vehicles, furniture and equipment), less any related debt used to acquire those assets that is still outstanding. The District uses these capital assets to provide services to its students; consequently, these assets are *not* available for future spending. Although the District's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

The District's financial position is the product of several financial transactions including the net results of activities, the acquisition and payment of debt, the acquisition and disposal of capital assets, and the depreciation of capital assets.

The following table presents a summary of the District's net position for the fiscal years ended June 30, 2012 and June 30, 2013:

	<u>J</u>	une 30,2013	<u>June 30, 2012</u>		
Current Assets	\$	2,369,231	\$	3,360,001	
Unamortized Fees		7,810,574		8,327,932	
Capital Assets - Net	_	7,172,407	_	7,523,005	
Total Assets	\$	17,352,212	\$	19,210,938	
Current Liabilities	\$	630,186	\$	606,251	
Long Term Liabilities	_	13,676,829	_	14,432,969	
Total Liabilities	\$	14,307,015	\$	15,039,220	
Invested in Capital Assets,					
Net of Related Debt	\$	4,619,615	\$	4,524,965	
Unrestricted Net Position	_	(1,574,418)		(353,247)	
Total Net Position	\$	3,045,197	\$	4,171,718	

The District's total revenues for the fiscal year ended June 30, 2013, were \$13.09 million. The total cost of programs and services was \$14.22 million. The following table presents a summary of the changes in net position for the fiscal years ended June 30, 2012 and June 30, 2013:

Revenues	<u>June 30, 2013</u>	<u>June 30, 2012</u>
Program Revenues		
Charges for Services	\$ 502,924	\$ 499,579
Operating Grants & Contributions	1,857,111	2,530,784
General Revenues		
Property Taxes	2,746,302	2,773,274
Earnings on Investments	15,468	22,321

Total Revenues	13,088,471	14,079,999
Expenses		
Instruction	7,357,667	7,246,680
Support Services	5,380,114	5,409,718
Community Services	820,234	873,415
Facilities Acquisition & Construction	1,591	0
Interest on Long Term Debt	755,386	754,683
Total Expenses	14,214,992	14,284,496

Increase/(Decrease)	) in Net Position	\$ (1,126,521)	) \$	(204,497)
	,	 (.,.==,==.)	· · ·	(== ., )

The cost of all governmental activities this year was \$14.22 million. Federal and state governments and charges for services subsidized certain programs with grants and contributions and other local revenues in the amount of \$2.36 million. The resulting net cost of governmental activities of \$11.86 million was financed by general revenues, which are primarily made up of state school support funds, property taxes, federal forest fees, and the utilization of reserves.

#### Financial Analysis of the District's Funds

As noted earlier, the District uses fund accounting to ensure and demonstrate compliance with financerelated legal requirements.

Governmental Funds: The focus of the District's governmental funds is to provide information on shortterm inflows, outflows, and balances of expendable resources. Such information is useful in assessing the District's financing requirements. In particular, unassigned fund balance may serve as a useful measure of the District's net resources available for spending at the end of the fiscal year.

The financial performance of the District as a whole is reflected in its governmental funds. As the District completed the year, its governmental funds reported a combined fund balance of \$1,584,378, a decrease of \$985,163 from the prior year. The fund balance constitutes unassigned, assigned, and restricted amounts. Of the current fund balance, \$443,811 is unassigned and available for spending at the District's discretion, \$115,678 is assigned for purposes defined by the federal Title grants, \$22,926 is restricted for capital projects, and the remaining fund balance of \$1,001,963 is restricted for the payment of debt.

The General Fund is the principal operating fund of the District. The decrease in fund balance in the General Fund for the fiscal year was \$865,855, a result of our declining State and Federal revenues. The combined fund balances of all other funds decreased by \$119,308 during the fiscal year. A transfer from the PERS UAL Reserve in the Debt Service Fund to the General Fund led to a decrease in the Debt Service Fund of \$194,383. Slight gains in the Special Revenue Fund and the Capital Projects Fund helped to offset the decrease in the Debt Service Fund.

#### Budgetary Highlights

General Fund revenues were budgeted and anticipated to be collected in the amount of \$10.97 million during the fiscal year. State funding continued its weak trend following the economic downturn. Declining enrollment within the District also continued. This prompted the District to be conservative on its revenue and expenditure budgeting. The District received \$10.83 million in revenue during the fiscal year. Spending for the year exceeded the revenues received, leading to a decrease in the General Fund ending balance of \$865,855.

#### Capital Assets

As of June 30, 2013, the District had invested \$25.86 million in capital assets, including school buildings, athletic facilities, land, vehicles, computers and other equipment and furnishings. This amount represents a net increase, prior to depreciation, of \$172,525 from last year. Total depreciation expense for the year was \$548,033. Additional information on the District's capital assets can be found in Note 1 and Note 5 on pages 7 and 21, respectively, of this report.

#### **Economic Factors and Next Year's Budget and Rates**

The State Legislature made a concerted effort to increase funding for schools for the 2013-15 biennium. The resulting increase did little for the District's budgetary woes. While the District had budgeted to spend down its ending fund balance of the past couple of years, frugality on the District's part had allowed the District to more or less maintain its healthy ending fund balance over that time. 2012-13 finally caught up with the District as the ending fund balance decreased over \$865,000 in the General Fund. The increase in funding merely helped fill the void left by the use of the District's reserves. Federal Forest Fees continue to be a topic of conversation in our nation's capital. The uncertainty of their continuation leaves the District uncertain of receiving further funds in the future. Because of these factors, the District continued with the conservative approach to budget preparation that has become the norm over the last few years. Employee contract and benefit costs also played a part in the District's conservatism, as the both union contracts were open for negotiation of the economic provisions.

The District also continued the trend started in the prior year of attempting to make rough budget projection three years out in an effort to judge the effects of enrollment trends, the economy, and collective bargaining agreements on the District's current and future resources and reserves. This process of looking forward helps the District understand implications that current budgets could have on future years.

Overall revenue in the District's General Fund budget was decreased for 2013-14 to \$12.53 million, namely due to the decrease in the ending fund balance. Outside of the State School Fund and the Federal Forest Fees, other revenues either remained relatively flat same or were projected to have slight increases or decreases. Based on these and other factors, the budgeted expenditures in the General Fund were decreased 1.54% to \$12,526,028 for fiscal year 2013-14. The District continues to budget to spend its ending fund balance down to 3% of budgeted General Fund revenues.

Based on the November 7, 2013 estimates from the Oregon Department of Education, for fiscal year 2013-14, the District is expected to receive \$295,573 more from the State School Support Fund in comparison to the prior year. This increase is due again to the conscious effort of the State Legislature to funnel more money to education this biennium. There is hope the economic downturn is over and that things have finally turned around in Oregon. The hope that the funding this biennium becomes the new floor and that funding will only increase in the future.

District enrollment has continued its steady decline. The increase anticipated for 2012-13 failed to materialize so the District continues to forecast a downward trend in our continued enrollment. As the funding for schools is based on a per student basis, this decline has continued to decrease the amount of funding from the State that the District may have received in prior years when enrollments were higher. The District continues to hop that the downward trend will eventually level off and perhaps even turn up, but the District is cautiously optimistic in those thoughts. Until there are greater employment opportunities in our area, however, it is expected that this decline in enrollment may continue.

Looking ahead to 2014-15 is a slightly rosier outlook than we have seen in recent years. While we are unsure that Oregon's economy is truly on the rebound, the District continues to watch and wait, hoping for further signs of a turnaround both nationally and locally. The State Legislature passed legislation that reduced PERS costs to the District but the legislation is subject to an immediate judicial review so any savings seen may only be for the short term. The entire Licensed contract will be open for negotiation and the Classified contract will be open for all economic issues and will have an impact on the 2014-15 budget.

In all probability the District will end 2013-14 with a 3% ending fund balance. Increases in funding from the State and decreases in PERS costs are not enough to make up for the loss of the District's reserves. The District continues to budget to expend monies from its PERS UAL reserve to maintain District

programs and personnel. At current pace that reserve will be used up entirely in 3 years. The Coffenberry gym payment will cease at the same time that the PERS UAL reserve is projected to be used up. The thought is that the money previously going to the gym payment will fill the budget void left by the PERS UAL reserve being used up. The District anticipates also taking money from that gym payment and attempting to refill the PERS UAL reserve. If the District can maintain its 3% ending fund balance, bargain contracts that are reasonable and affordable, and continues on the conservative path it has been on in recent years then hopefully it can ride out Oregon's economic storm and start to see an upturn in its economic condition and return its reserves to a more appropriate level.

#### **Contacting the District's Financial Management**

This financial report is designed to provide our constituents, investors and creditors with a general overview of the District's finances and to demonstrate the District's accountability of its resources. If you have any questions about this report or need additional information, contact the Business Office, South Umpqua School District No. 19, 558 S.W. Chadwick Lane, Myrtle Creek, Oregon 97457.

#### DOUGLAS COUNTY SCHOOL DISTRICT NO. 19 RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES AND CHANGES IN FUND BALANCE OF GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES FISCAL YEAR ENDED JUNE 30, 2013

NET CHANGE IN FUND BALANCE			\$ (985,163)
Amounts reported for governmental activities in the Statement of Activities are different because	se:		
Governmental funds do not report inventory balances under the purchase method of			
accounting for inventory while the Statement of Net Position does. This is the change			
in inventory in the current period.			(7,132)
Prepaid pension benefit obligations are reported as an asset on the Statement of			
Net Position These amounts are amortized in the Statement of Activities.			(499,517)
Government funds report capital outlay as expenditures. However, in the			
Statement of Activities the cost of those assets is allocated over their estimated			
useful lives and reported as depreciation expense. This is the amount by which			
depreciation exceeded capital outlays in the current period.			
Expenditures for capital assets	\$	201,075	
Less current year depreciation		(548,033)	(346,958)
Governmental funds report the proceeds from the sale of capital assets as a			
revenue. However in the Statement of Activities the gain or loss on the sale/			
disposal is recognized.			
Loss on disposal of capital assets			(3,640)
Compensated absences are recognized as an expenditure in the governmental funds			
when they are paid. In the Statement of Activities compensated absences are			
recognized as an expenditure when earned.			3,734
Early retirement benefits are recognized as an expenditure in the governmental funds			
when they are paid. In the Statement of Activities early retirement benefits are			
recognized as an expenditure when earned.			(9,279)
Repayment of principal is an expenditure in the governmental funds, but			
reduces the liability in the Statement of Net Position. These are the principal			
repayments.			739,829
Governmental funds report the effect of issuance costs, premiums, and discounts			
when debt is first issued, whereas these amounts are deferred and amortized in			
Statement of Activities. This amount is the net effect of these differences:			
Amortization of issuance costs			(17,841)
Amortization of bond premium			16,311
Property taxes that do not meet the measurable and available criteria are not			
recognized as revenue in the current year in the governmental funds. In the			
Statement of Activities property taxes are recognized as revenue when levied.			 (16,865)
CHANGE IN NET POSITION			\$ (1,126,521)

#### Note 1 – Summary of Significant Accounting Policies

#### The Reporting Entity

Douglas County School District No. 19 (the District), Myrtle Creek, Oregon, was organized under provisions of Oregon Statutes pursuant to ORS Chapter 332 for the purpose of operating elementary and secondary schools. The District is governed by a separately elected seven-member Board of Education (Board) who approves the administrative officials. The daily functioning of the District is under the supervision of the Superintendent. As required by generally accepted accounting principles, all activities of the District have been included in the basic financial statements.

The District qualifies as a primary government since it has a separately elected governing body, is a legally separate entity, and is fiscally independent. In evaluating how to define the District, for financial reporting purposes, management has considered all potential component units. The decision to include a potential component unit in the reporting entity was made by applying the criteria set forth in generally accepted accounting principles (GAAP). The basic-but not the only-criterion for including a potential component unit within the reporting entity is the governing body's ability to exercise oversight responsibility. The most significant manifestation of this ability is financial interdependency. Other manifestations of the ability to exercise oversight responsibility include, but are not limited to, the selection of governing authority, the designation of management, the ability to significantly influence operations, and accountability for fiscal matters. A second criterion used in evaluating potential component units is the scope of public service. Application of this criterion involves considering whether the activity benefits the District and/or its citizens, or whether the activity is conducted within the geographic boundaries of the District and is generally available to its citizens. A third criterion used to evaluate potential component units for inclusion or exclusion from the reporting entity is the existence of special financing relationships, regardless of whether the District is able to exercise oversight responsibilities. Based upon the application of these criteria, the District does not have any component units which require inclusion in the combined financial statements.

The more significant of the District's accounting policies are described below.

#### **Basis of Presentation**

The financial statements of Douglas County School District No. 19 have been prepared in conformity with accounting principles generally accepted in the United States of America (GAAP) as applied to government units. The Governmental Accounting Standards Board is the accepted standard-setting body for establishing governmental accounting and financial reporting principles.

#### **Government-wide Financial Statements**

The Statement of Net Position and the Statement of Activities display information about the District. These statements include the governmental financial activities of the overall District. Eliminations have been made to minimize the double counting of internal activities. Governmental activities are financed primarily through property taxes, intergovernmental revenues, and charges for services.

#### Note 1 – Summary of Significant Accounting Policies (continued)

The Statement of Activities presents a comparison between direct expenses and program revenues for each of its functions/programs. Direct expenses are those that are specifically associated with a function and, therefore, are clearly identifiable to that function. Eliminations have been made to minimize the double counting of internal activities in the Statement of Activities. Program revenues include: (1) charges to students or others for tuition, fees, rentals, material, supplies or services provided, (2) operating grants and contributions and (3) capital grants and contributions. Revenues that are not classified as program revenues, including property taxes and state support, are presented as general revenues.

The District operates and reports only governmental and fiduciary funds. Therefore, financial statements have only been prepared for governmental and fiduciary funds.

#### Fund Financial Statements

The fund financial statements provide information about the District's funds. Separate statements for each fund category are presented. The emphasis of fund financial statements is on major governmental funds, each displayed in a separate column. All remaining governmental funds are aggregated and reported as other governmental funds.

The District reports the following major governmental funds:

*General Fund* - This is the District's primary operating fund and accounts for all revenues and expenditures except those required to be accounted for in another fund.

*Special Revenue Fund* - This fund accounts for revenue sources that are legally restricted to expenditure for specific purposes. This fund accounts for the revenues and expenditures related to Federal and State grants, as well as those related to student body activities.

*Debt Service Fund* - This fund accounts for the servicing of general long-term debt not being financed by the General Fund. For the District, this includes the 2002, 2003 and 2012 PERS Bonds, the 2007 and 2012 Full Faith Obligation Bonds and the QZAB and QSCB Bonds. The principal source of revenues are property taxes, interest subsidies and other local revenues.

*Capital Projects Fund* - This fund accounts for the acquisition, construction and maintenance of improvements within the District. Principal revenue source is investment earnings.

#### Measurement Focus and Basis of Accounting

Government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded at the time liabilities are incurred, regardless of when the related cash flows take place. Non-exchange transactions, in which the District receives value without giving equal value in exchange, include property taxes, grants, entitlements and donations. On the accrual basis of accounting, revenue from property taxes is recognized in the fiscal year for which the taxes are levied. Revenue from grants, entitlements, and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied. As a general rule the effect of interfund activity has been eliminated from the governmental-wide financial statements.

#### Note 1 – Summary of Significant Accounting Policies (continued)

Governmental fund financial statements are reported using the current financial resources measurement focus and modified accrual basis of accounting. Under this method, revenues are recognized when measurable and available. The District considers all revenues reported in the governmental funds to be available if they are collected within sixty days after year-end. Property taxes and interest are considered to be susceptible to accrual. Expenditures are recorded when the related fund liability is incurred, except for principal and interest on general long-term debt, which are recognized as expenditures to the extent they have matured, certain compensated absences which are recognized when the obligations are expected to be liquidated with expendable available financial resources, and early retirement benefits which are recorded when paid. Capital asset acquisitions are reported as expenditures in the governmental funds and proceeds from general long-term debt and acquisitions under capital leases are reported as other financing sources.

When both restricted and unrestricted resources are available for use, it is the District's policy to use restricted resources first, then unrestricted resources as they are needed.

Private sector standards of accounting and reporting issued prior to December 1, 1989, generally are followed in the government-wide fund financial statements to the extent that these standards do not conflict or contradict the guidance of the Governmental Accounting Standards Board.

#### Cash, Cash Equivalents and Investments

The District's cash and cash equivalents consist of cash on hand, demand deposits, secured market deposit accounts, and short-term investments with original maturities of three months or less. Short-term investments are stated at cost which approximates fair value.

The District's investments, authorized under state statute, consist of banker's acceptances, commercial paper, U.S. Government Agency securities, and the State of Oregon Treasurer's Local Government Investment Pool (LGIP). Banker's acceptances, commercial paper and U.S. Government Agency securities are stated at amortized cost which approximates fair value. The LGIP is stated at cost which approximates fair value. Fair value of the LGIP is the same as the District's value in the pool shares.

The Oregon State Treasury administers the LGIP. It is an open-ended no-load diversified portfolio offered to any agency, political subdivision or public corporation of the State that by law is made the custodian of, or has control of, any fund. The LGIP is commingled with the State's short-term funds. In seeking to best serve local governments of Oregon, the Oregon legislature established the Oregon Short-Term Fund Board. The purpose of the Board is to advise the Oregon State Treasury in the management and investment options of the LGIP. The investments are regulated by the Oregon Short Term Fund Board and approved by the Oregon Investment Council (ORS 294.805 to 294.895).

#### Investment Income

Investment income is composed of interest and net changes in the fair value of applicable investments. Investment income is included in other local revenue in the fund financial statements, and is allocated monthly to all funds based on the fund's average cash balance.

#### Note 1 – Summary of Significant Accounting Policies (continued)

#### Property Taxes Receivable

Ad valorem property taxes are levied on all taxable property as of January 1 preceding the beginning of the fiscal year. Property taxes become a lien on July 1 for personal property and real property. Property taxes are levied on July 1. Collection dates are November 15, February 15, and May 15. Discounts are allowed if the amount due is received by November 15 or February 15. Taxes unpaid and outstanding on May 16 are considered delinquent.

Uncollected property taxes are recorded on the Statement of Net Position. Uncollected taxes are deemed to be substantially collectible or recoverable through liens; therefore, no allowance for uncollectible taxes has been established.

#### Accounts and Other Receivables

Accounts and other receivables are comprised primarily of State school support and claims for reimbursement of costs under various federal and state grants. Due to the nature of the receivables and the likelihood of collection, no provision for uncollectibles has been made.

#### <u>Grants</u>

Unreimbursed grant expenditures due from grantor agencies are reflected in the basic financial statements as receivables and revenues. Grant revenues are recorded at the time eligible expenditures are incurred. Grant monies received prior to the occurrence of qualifying expenditures are recorded as deferred revenue.

#### Interfund Transactions

Advances between funds are accounted for in the appropriate interfund receivable and payable accounts. These advances (reported in "due from" asset accounts) are considered "available spendable resources".

Flows of cash from one fund to another without a requirement for repayment are reported as interfund transfers. Interfund transfers between governmental funds are eliminated in the Statement of Activities. Interfund transfers in the fund financial statements are reported as other financing sources/uses.

#### Inventories

Inventories consist of supplies held for sale. Inventories are charged as expenditures when purchased and are stated at cost using the first-in, first-out (FIFO) method.

A portion of the inventory consists of donated United States Department of Agriculture (USDA) commodities. Commodities are recorded as expenditures when purchased and are stated at their fair market value based on guidelines provided by the USDA. Commodities on hand at year end are included on the Statement of Net Position.

#### Note 1 – Summary of Significant Accounting Policies (continued)

#### Capital Assets

Capital assets are recorded at original or estimated original cost. Donated capital assets are recorded at their estimated fair market value on the date donated. The District defines capital assets as assets with an initial cost of more than \$5,000 and an estimated life in excess of one year. Interest incurred during construction is not capitalized. Maintenance and repairs that do not add to the value of the asset or materially extend assets' lives are not capitalized. Capital assets are depreciated using the straight-line method over the following useful lives:

Land improvements - 20 to 25 years Buildings and improvements - 20 to 50 years Vehicles, furniture, and equipment - 5 to 15 years

#### Retirement Plan

Substantially all of the District's employees are participants in the State of Oregon Public Employees Retirement System (PERS). Contributions to PERS are made on a current basis as required by the plan and are charged as expenditures/expenses as funded.

#### **Compensated Absences**

The District's employee vacation and sick leave policies generally provide for granting vacation and sick leave with pay. The current and long term liabilities for vested or accumulated vacation leave, compensatory time, and retirement benefits are reported on the government-wide financial statements. A liability for these amounts is reported in governmental funds only if they have matured, for example, as a result of employee leave or resignation.

No liability is recorded for nonvesting accumulating rights to receive sick pay benefits.

#### Long-term Debt

In the government-wide financial statements long-term debt is reported as a liability in the Statement of Net Position. Bond premiums and discounts, as well as issuance costs, are deferred and amortized over the life of the bonds using the straight-line method, which approximates the effective interest method. Bonds payable are reported net of the applicable bond premium or discount.

In the fund financial statements bond premiums and discounts, as well as bond issuance costs, are recognized when incurred and not deferred. The face amount of the debt issued, premiums received on debt issuances, and discounts are reported as other financing sources and uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

#### Note 1 – Summary of Significant Accounting Policies (continued)

#### Net Position/Fund Balance

In the government-wide financial statements, equity is classified as net position and displayed in three components:

- a. Invested in capital assets, net of related debt Consists of net book value of all capital assets less the outstanding debt used to acquire, construct, or improve those assets.
- b. Restricted net position Consists of net assets with constraints placed on the use by either (1) external groups such as creditors, grantors, contributors, or laws and regulations of other governments; or (2) law through constitutional provisions or enabling legislation.
- c. Unrestricted net position All other remaining net position that does not meet the definition of "restricted".

In the fund financial statements, governmental fund equity is classified in the following categories:

Non-Spendable – Includes items not immediately converted to cash, such as prepaid items and inventory.

Restricted – Includes items that are restricted by external creditors, grantors, or contributors, or restricted by legal constitutional provisions.

Committed – Includes items committed by the District's Board of Directors, by formal board action.

Assigned – Includes items assigned for specific purposes, authorized by the District's Superintendent and/or Director of Business Services

Unassigned – This is the residual classification used for those balances not included in another category.

It is the District's policy to first use restricted net position prior to the use of unrestricted net position when an expenditure is incurred for purposes for which both restricted and unrestricted net position are available.

# <u>Budget</u>

A budget is prepared and legally adopted for each governmental fund type on the modified accrual basis of accounting. The budgetary basis of accounting is the same as accounting principles generally accepted in the United States of America for the governmental fund types, except capital outlay expenditures, including items below the District's capitalization level, are budgeted by major function in governmental fund types. The resolution authorizing appropriations for each fund sets the level by which expenditures cannot legally exceed appropriations.

Appropriations are established at the major function level (instruction, support services, enterprise and community services, facilities acquisition and construction, debt service, operating contingency and transfers) for each fund. The detailed budget document, however, is required to contain more specific, detailed information for the aforementioned expenditure categories. Unexpected additional resources may be added to the budget through the use of a supplemental budget and appropriation resolution.

#### Note 1 – Summary of Significant Accounting Policies (continued)

Supplemental budgets less than 10% of a fund's original budget may be adopted by the Board at a regular meeting. A supplemental budget greater than 10% of a fund's original budget requires hearings before the public, publication in newspapers and approval by the Board. Original and supplemental budgets may be modified by the use of appropriation transfers within a fund between the levels of control (major function levels) with Board approval. During the year there were no resolutions appropriating unanticipated resources. Appropriations lapse at the end of each fiscal year. The District did not exceed its authorized appropriations for the year ended June 30, 2013.

#### Use of Estimates

The preparation of basic financial statements, in conformity with accounting principles generally accepted in the United States of America, requires management to make estimates and assumptions that effect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the basic financial statements and reported amounts of revenues and expenses/expenditures during the reporting period. Actual results could differ from those estimates.

#### Note 2 – Equity in Pooled Cash and Investments

Cash and investments are comprised of the following as of June 30, 2013:

Petty Cash	\$ 149
Deposits with financial institutions:	
Demand Deposits	987,073
LGIP	 512,316
Total deposits with financial institutions	\$ 1,499,538

Cash and investments are shown on the basic financial statements as:

Statement of Net Assets	
Equity in Cash and Investments	<u>\$ 1,499,538</u>

**Deposits.** The Governmental Accounting Standards Boards has adopted accounting principles generally accepted in the United States of America (GAAP), which include standards to categorize deposits to give an indication of the level of custodial credit risk assumed by the District at June 30, 2012. If bank deposits at year end are not entirely insured or collateralized with securities held by the District or by its agent in the District's name, the District must disclose the custodial credit risk that exists. Deposits with financial institutions are comprised of bank demand deposits. For deposits in excess of federal depository insurance, Oregon Revised Statutes require depository institutions to be in compliance with ORS 295. For the fiscal year ended June 30, 2013, the carrying amounts of the District deposits in various qualifying financial institutions were \$1,201,186. The bank balances at June 30, 2013 were \$1,193,942. Of this balance, FDIC covered \$250,000 and the remainder was considered uncollateralized, however, these funds were deposited in an approved depository as identified by the State's Treasurer.

#### Note 2 – Equity in Pooled Cash and Investments (continued)

Effective July 1, 2008, House Bill 2901 created a shared liability structure for participating bank depositories in Oregon. Barring any exceptions, a qualifying bank depository is required to pledge collateral valued at least 10% of their quarter-end public fund deposits if they are well capitalized, 25% of the quarter-end public fund deposits if they are adequately capitalized, or 110% of the quarter-end public fund deposits if they are undercapitalized or assigned to pledge 110% by the Office of State Treasurer. In the event of a bank failure, the entire pool of collateral pledged by all qualified Oregon public bank depositories is available to repay the deposits of public funds of governmental entities.

*Custodial Credit Risk.* Custodial credit risk for deposits is the risk that, in the event of a bank failure, a government's deposits may not be returned to it. The District does not have a formal deposit policy for custodial credit risk.

**Investments.** Douglas County School District No. 19 has invested funds in the State Treasurer's Oregon Short-term Fund Local Government Investment Pool during fiscal year 2012. The Oregon Short-term Fund is the local government investment pool for local governments and was established by the State Treasurer. It was created to meet the financial and administrative responsibilities of federal arbitrage regulations. The investments are regulated by the Oregon Short-Term Fund Board and approved by the Oregon Investment Council (ORS 294.805 to 294.895). Local Government Investment Pool (LGIP) is an external investment pool managed by the State Treasurer's office, which allow governments within the state to pool their funds for investment purposes. The amounts invested in the pool are not classified by risk categories because they are not evidenced by securities that exist in physical or book entry form as defined by GASB statement No. 40. LGIP is not rated.

In addition, the Oregon State Treasury LGIP distributes investment income on an amortized cost basis and participants' equity in the pool is determined by the amount of participant deposits, adjusted for withdrawals and distributed income. Accordingly, the adjustment to fair value would not represent an expendable increase in the District's cash position.

Investments in the Oregon State Treasury LGIP are made under the provisions of ORS 194.180. These funds are held in the District's name and are not subject to collateralization requirements or ORS 295.015. Investments are stated at amortized cost, which approximated fair value.

State of Oregon statutes restrict the types of investments in which the District may invest. Authorized investments include obligations of the United States Government and its agencies, certain bonded obligations of Oregon municipalities, bank repurchase agreements, bankers' acceptances, time certificates of deposit, certain commercial paper, and the State of Oregon Treasurer's Local Government Investment Pool. As of June 30, 2013 and for the year then ended, the District was in compliance with the aforementioned State of Oregon statutes.

*Credit Risk.* State Statutes authorize the District to invest primarily in general obligations of the U.S. government and its agencies, certain bonded obligations of Oregon municipalities, bank repurchase agreements, banker's acceptances, certain commercial papers, and the State Treasurer's Investment Pool, among others. The District has no formal investment policy that further restricts its investment choices.

#### Note 2 – Equity in Pooled Cash and Investments (continued)

*Concentration of Credit Risk.* The District is required to provide information about the concentration of credit risk associated with its investments in one issuer that represents 5 percent or more of the total investments, excluding investments in external investment pools or those issued and explicitly guaranteed by the U.S. Government. The District has no such investments.

Interest Rate Risk. The District has no formal investment policy that explicitly limits investment maturities as a means of managing its exposure to fair value loss arising from increasing interest rates.

		Percentage of	
Investment Type	Maturity	Portfolio	Fair Value
State of Oregon Treasurer's	1 day	100%	\$ 512,316

#### Note 3 – Receivables

Receivables are comprised of the following as of June 30, 2013:

	Property Taxes Grants		Grants	 Other	Total		
General Fund Special Revenue Fund	\$	355,932 -	\$	- 396,947	\$ 92,660 -	\$	448,592 396,947
Total receivables	\$	355,932	\$	396,947	\$ 92,660	\$	845,539

#### Note 4 – Prepaid Pension Expense

Payments for fees or services that will benefit periods beyond the fiscal year end are recorded as prepaid items. On October 31, 2002, and again on April 21, 2003, Douglas County School District No. 19 financed its unfunded actuarial retirement liability. As a result, the District has prepaid a significant portion of its pension expense. This prepaid amount reflects twenty-six years advance payment of the District's pension obligation. Therefore, the amounts are being amortized over a twenty-six year period utilizing the straight-line method.

	Original Issue	Prepaid at June 30, 2012	Amortization	Prepaid at June 30, 2013
Prepaid Pension Expense	\$12,987,454	\$8,123,799	\$ 499,517	\$7,624,282

# Note 5 – Capital Assets

The changes in capital assets for the year ended June 30, 2013, are as follows:

	Balance July 1, 2012	Additions	Deletions	Balance June 30, 2013
Capital assets not being depreciated Land	\$ 1,248,172	<u> </u>	\$ -	\$ 1,248,172
<b>-</b>				
Total capital assets not being depreciated	1,248,172	_	_	1,248,172
being depreciated	1,240,172			1,240,172
Capital assets being depreciated				
Land Improvements	140,724	-	-	140,724
Building & Improvements	23,006,982	201,075	(28,550)	23,179,507
Machinery/Equipment/Vehicles	2,542,801			2,542,801
Totals		201 075	(28 550)	25 962 022

Depreciation expense for the year was charged to the following programs:

Program	
Instruction	\$ 301,936
Supporting Services	211,721
Community Services	 34,376
Total	\$ 548,033

#### Note 6 – Other Postemployment Benefits

#### Postemployment Health Insurance Subsidy

The District implemented GASB Statement 45, Accounting and Financial Reporting by Employers for Postemployment Benefits Other Than Pensions (OPEB) for the fiscal year ended June 30, 2009. The implementation allows the District to report its liability for other post-employment benefits consistent with established generally accepted accounting principles and to reflect an actuarially determined liability for the present value of projected future benefits for retired and active employees on the financial statements. The District does not issue a stand-alone report for this plan.

**Plan Description.** The District operates a single-employer defined benefit post-retirement health benefits program. The District may pay all or a portion of a retiree's postemployment medical benefits until Medicare eligibility. This explicit benefit is required to be valued under GASB Statement 45. There are 146 active and 33 retired members in the plan. Benefits and eligibility for members are established through the collective bargaining agreements and employment contracts.

Different contracts govern the employees. Eligible administrative and licensed staff must be at least 58 years of age and have at least fifteen years of service with the District. For 2008-2009 only, licensed retirees must be at least age 50 and have at least fifteen years of service with the District, and submit notice of intent to participate by March 20, 2009. Eligible classified staff, for 2008-2009 only, must be at least age 55 and have at least fifteen years of service with the District, and submit notice of intent to participate by March 20, 2009. Classified employees may defer retirement for up to one year. Eligible confidential/central office and supervisors/directors must be at least 58 years of age with at least fifteen years of service with the District. Monthly payments continue until the earlier of the retiree's age 62 (age 65 for classified retirees), or death. Total number of payments is not to exceed 120 (months).

Benefits for administrative and supervisors/directors include employee only medical coverage. Eligible classified participants are eligible for \$400 per month. Confidential/central office employees are eligible for full family medical, dental and vision coverage. Licensed participants are eligible for \$200 per month. Certain other retirees have special arrangements with the District for benefits. Administrative and licensed retirees are required to be available to volunteer fifteen days of work in order to receive full benefits.

In addition to the explicit medical benefits for certain retirees, continued medical coverage is offered to the District's eligible retirees and their spouses and dependents until Medicare eligibility. The active premium rate (whether paid by the District or by the retiree) still applies. However, in some cases the premium itself does not represent the full cost of covering these retirees (since they are older than the active population, retirees can be expected to generate higher medical claims and therefore higher premiums for the active population). This additional cost is called the "implicit subsidy", and is required to be valued under GASB Statement No. 45.

However, an implicit subsidy does not exist in arrangements that are deemed to be "community rated" by a qualified actuary. In general, a community rated situation is one in which the health care claims experience of the employer is not expected to impact the premiums being charged the employer. For example, the District participates in the Oregon Educators Benefit Board (OEBB) health plans, along with many other school districts, community colleges, and educational service districts. For plans in which the District's claims experience represents only a very small percentage of the total claims experience of the plans as a whole, the arrangement is deemed community related. The District's participation in ODS Health Plans constitutes a community rated arrangement; therefore, there is no implicit subsidy to value.

## Note 6 – Other Postemployment Benefits (continued)

This program was established in accordance with Oregon Revised Statutes (ORS) 243.303, which requires that all eligible retirees be allowed to continue receiving health insurance benefits, at their cost, until age 65 or they become otherwise eligible for Medicare. ORS stipulate that for the purpose of establishing healthcare premiums, the rate must be based upon all plan members, including active members and retiree experience, there is an implicit medical benefit to retirees because the medical premium rates charged for coverage typically are less than actual expected retiree claim costs. Qualified spouses, domestic partners, and children may qualify for coverage. The difference between retiree claims costs, which because of the effect of age is generally higher in comparison to all plan members, and the amount of retiree healthcare premiums represents the District's implicit employer contribution.

*Funding Policy.* The benefits from this program are paid by the retired employees on a self-pay basis and the required contribution is based on projected pay-as-you go financing requirements. There is no obligation on the part of the District to fund these benefits in advance. During fiscal year 2012-13 the District recognized, on a budgetary basis, expenditures of approximately \$29 thousand for the post-employment healthcare benefits.

Annual OPEB Cost and Net OPEB Obligation. The District's annual other postemployment benefit (OPEB) cost (expense) is calculated based on the annual required contribution of the employer (ARC), an amount actuarially determined in accordance with the parameters of GASB 45. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and amortize any unfunded actuarial liabilities (or funding excess) over a period not to exceed 30 years. The following table shows the components of the District's annual OPEB cost for the year ending June 30, 2013, the amount actually contributed to the plan, and changes in the District's net OPEB obligation.

Annual required contribution (ARC) and annual OPEB cost (expense)	\$ 30,245
Less: Contributions made	(29,351)
Increase in net OPEB obligation	894
Net OPEB obligation - beginning of year	58,093
Net OPEB obligation - end of year	\$ 58,987

The District's annual OPEB cost, the percentage of annual OPEB cost contributed to the plan and the net OPEB obligation for 2013 are:

	Annual		Funded	Net OPEB
Fiscal year	OPEB Cost	Contributions	Ratio	Obligation
2013	\$ 30,245	\$ 29,351	99.77%	\$ 58,987

Actuarial methods and assumptions. Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. The actuarial assumptions included: (1) an assumed inflation rate of 4.00% and an assumed overall payroll growth rate of 4.00% per year, (2) annual premium increase rate which ranges from 10% in 2008-2009 to 5% in 2018-2019 and later, (3) turnover and disability rates by age and years of service, as developed by Oregon PERS, (4) range of retirement ages for employees with fewer, and more, than 30 years of service, (5) marital status, (6) coverage of eligible children, (7) retirees will work the full 15 days required in return for early retirement benefits, valued at the Substitute Rate, which for the 2009-10 fiscal

## Note 6 – Other Postemployment Benefits (continued)

year was \$159.47 per day, and (8) and no investment return, due to lack of assets set aside to fund this program.

Amounts determined regarding the funded status of the plan and the annual required contribution of the employer are subject to continual revision as actual results are compared with past expectation and new estimates are made about the future. The schedule of funding progress, presented as required supplementary information following the notes to the financial statements, presents multiyear trend information that shows whether the actuarial value of plan assets is increasing or decreasing over time relative to actuarial accrued liabilities for benefits. The schedule of funding progress is required to report the last three actuarial valuations, however, the July 1, 2008 and 2010 are the only valuations prepared to date.

For the District's initial valuation the Projected Unit Credit Method was the valuation method used to determine the District's OPEB liability. The Projected Unit Credit Method is comprised of two components: normal cost, and amortization payments. In its application of this method the expected accrued benefit of each participant at benefit commencement (reflecting future expected increases in salaries and medical premiums) is allocated in equal proportion over the participant's years of service from hire to expected retirement. The normal cost is the present value of benefits expected to accrue in the current year.

The present value of benefits accrued in as of the valuation date is called the accrued liability. The difference between the accrued liability and the actuarial value of plan assets is called the unfunded actuarial accrued liability (UAAL). All changes in liability due to plan amendments, changes in actuarial assumptions, or changes in actuarial data are amortized separately. In additions, all gains or losses may be amortized each year. The UAAL is being amortized as a level percentage of payroll over future open periods.

*Funded Status and Funding Progress.* As of July 1, 2010 the actuarial accrued liability for benefits was \$188,668, and the actuarial value of assets was \$0, resulting in a UAAL of \$188,668. The covered payroll (annual payroll of active employees covered by the plan) was \$6.6 million for fiscal year 2013 and the ratio of the UAAL to the covered payroll was 2.8%. Using a 10-year amortization period the Annual Required Contribution (ARC) for 2012 has been actuarially determined to be \$30,245.

## STIPEND

*Plan Description.* The District provides a single-employer defined benefit early retirement supplement program for certain employees until the participants are eligible for full Social Security benefits. This pension-type benefit is required to be valued under GASB Statement 27.

Benefits and eligibility for members are established through the collective bargaining agreements and employment contracts. Different contracts govern the employees.

Eligible administrative and licensed retirees must be at least 58 years of age and have at least fifteen years of service with the District. For 2008-2009 only, licensed retirees must be at least age 50 and have at least fifteen years of service with the District, and submit notice of intent to participate by March 20, 2009.

For both classes of retirees, the eligible benefit amount is \$300 per month. However, retirees are required to be available to volunteer fifteen days of work in order to receive full benefits.

## Note 6 – Other Postemployment Benefits (continued)

For both classes of retirees, the last stipend payment is made in the month preceding the earlier of the participant's 62<sup>nd</sup> birthday, or death. Total number of payments is not to exceed 120 months.

Confidential and Classified employees are not eligible.

*Funding Policy.* The District pays for all the benefits. The contributions are financed on a pay-as-you-go basis. During fiscal year 2012 the District recognized, on a budgetary basis, expenditures of approximately \$20 thousand for the early retirement supplement program.

Annual Pension Cost and Net Pension Obligation. The District's annual pension cost (expense) is calculated on the annual required contribution of the employer (ARC), an amount actuarially determined in accordance with the parameters of GASB Statement 27. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and amortize any unfunded actuarial liabilities (or funding excess) over a period not to exceed 4 years. An amortization base of 4 years was used due to the large number of retirees currently receiving a stipend benefit. Given the current population, the District expects that number to decrease in future years. The following table shows the components of the District's annual pension cost for the year ending June 30, 2013, the amount actually contributed to the plan, and changes in the District's net pension obligation.

Annual required contribution (ARC) and annual pension cost (expense)	\$ 28,785
Less: Contributions made	(20,400)
Increase in net pension obligation	8,385
Net pension obligation - beginning of year	28,856
Net pension obligation - end of year	\$ 37,241

The District's annual pension cost, the percentage of annual pension cost contributed to the plan and the net pension obligation for 2013 are:

	Annual Requird	Funded	Net OPEB	
Fiscal year	Contribution	Contributions	Ratio	Obligation
2013	\$ 28,785	\$ 20,400	87.80%	\$ 37,241

Actuarial methods and assumptions. Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. The actuarial assumptions included: (1) an assumed inflation rate of 4.00% and an assumed overall payroll growth rate of 4.00% per year, (2) annual premium increase rate which ranges from 10% in 2008-2009 to 5% in 2018-2019 and later, (3) turnover and disability rates by age and years of service, as developed by Oregon PERS, (4) range of retirement ages for employees with fewer, and more, than 30 years of service, (5) marital status, (6) coverage of eligible children, (7) retirees will work the full 15 days required in return for early retirement benefits, valued at the Substitute Rate, which for the 2009-10 fiscal year is \$159.47 per day, and (8) and no investment return, due to lack of assets set aside to fund this program.

## Note 6 – Other Postemployment Benefits (continued)

Amounts determined regarding the funded status of the plan and the annual required contribution of the employer are subject to continual revision as actual results are compared with past expectation and new estimates are made about the future. The schedule of funding progress, presented as required supplementary information following the notes to the financial statements, presents multiyear trend information that shows whether the actuarial value of plan assets is increasing or decreasing over time relative to actuarial accrued liabilities for benefits. The schedule of funding progress is required to report the last three actuarial valuations, however, the July 1, 2008 and 2010 are the only valuations prepared to date.

For the District's initial valuation the Projected Unit Credit Method was the valuation method used to determine the District's pension liability. The Projected Unit Credit Method is comprised of two components: normal cost, and amortization payments. In its application of this method the expected accrued benefit of each participant at benefit commencement (reflecting future expected increases in salaries) is allocated in equal proportion over the participant's years of service from hire to expected retirement. The normal cost is the present value of benefits expected to accrue in the current year.

The present value of benefits accrued in as of the valuation date is called the accrued liability. The difference between the accrued liability and the actuarial value of plan assets is called the unfunded actuarial accrued liability (UAAL). All changes in liability due to plan amendments, changes in actuarial assumptions, or changes in actuarial data are amortized separately. In additions, all gains or losses may be amortized each year. The UAAL is being amortized as a level percentage of payroll over future open periods.

*Funded Status and Funding Progress.* As of July 1, 2010 the actuarial accrued liability for stipend benefits was \$72,897, and the actuarial value of assets was \$0, resulting in a UAAL of \$72,897. The covered payroll (annual payroll of active employees covered by the plan) was \$6.6 million for fiscal year 2013 and the ratio of the UAAL to the covered payroll was 1.1%. Using a 4-year amortization period the Annual Required Contribution (ARC) for 2012 has been actuarially determined to be \$28,785.

## Note 7 – Deferred Revenue

Governmental funds report deferred revenue in connection with receivables that are not considered to be available to liquidate liabilities of the current period. In addition, governmental funds report deferred revenue in connection with resources that have been received but not yet earned. At June 30, 2013, the various components of deferred revenue consisted of the following:

	Unavailable	Unearned	Total
General Fund			
Property Taxes	\$ 304,263	\$ -	\$304,263

## Note 8 – Leases

#### **Operating Leases**

The District leases copiers under noncancellable operating leases. Total costs for such leases were \$51,087 for the fiscal year ended June 30, 2013. The future minimum lease payments for these leases are as follows:

A .
Amount
\$ 50,373
33,171
22,270
12,410
\$ 118,224

## Note 9 - Long-Term Debt

## Limited Tax Pension Bond - 2002

On October 31, 2002, Douglas County School District No. 19 issued bonds as a part of the Oregon School Boards Association Limited Tax Pension Bond Pool. These bonds were issued pursuant to ORS 238.692 to 238.698 to finance the District's unfunded actuarial retirement liability as computed through December 31, 2000. The original amount of the 2002 issue was \$6,393,627 and will be repaid in semiannual installments beginning June 30, 2003 and ending June 30, 2028. Interest shall be paid at a variable rate ranging from 2.06% to 6.10%.

On January 31, 2012, the District participated in a partial refunding of its Limited Tax Pension Bond - 2002, as part of the Oregon School Board Association's Limited Tax Pension Bond Pool. This partial refunding was for the 2021 year for \$450,000. The District represents 2.05% of the aggregate principal amount of the 2012 Obligation. The interest rate for this refunded portion is 2.75% versus 6.10%.

The Limited Tax Pension Bond - 2002 schedule does not include this refunding.

## Note 9 – Long-Term Debt (continued)

Year Ending June 30th	Principal	Interest	Total	Interest Rate
2014	\$ 121,388	\$ 343,261	\$ 464,649	5.36%
2015	125,582	364,066	489,648	5.51%
2016	128,078	386,570	514,648	5.55%
2017	129,327	410,322	539,649	5.61%
2018	132,099	437,549	569,648	5.67%
2019-2023	1,300,598	1,656,067	2,956,665	5.67 - 6.10%
2024-2028	3,300,000	534,465	3,834,465	5.50 - 5.55%
Total	\$5,237,072	\$4,132,300	\$ 9,369,372	

The partial refunding of the Series 2002 bonds is as follows:

Fiscal Year					
Ended	Principal	Interest	Total	Interest Rate	
2014	\$ -	\$ 12,375	\$ 12,375	2.75%	
2015	-	12,375	12,375	2.75%	
2016	-	12,375	12,375	2.75%	
2017	-	12,375	12,375	2.75%	
2018	-	12,375	12,375	2.75%	
2019	-	12,375	12,375	2.75%	
2020	-	12,375	12,375	2.75%	
2021	450,000	12,375	462,375	2.75%	
	\$450,000	\$ 99,000	\$ 549,000		

## Limited Tax Pension Bond - 2003

On April 21, 2003, Douglas County School District No. 19 participated in a second Limited Tax Pension Bond Pool. These bonds were issued pursuant to ORS 238.692 to 238.698 to finance the District's additional unfunded actuarial retirement liability as computed through December 31, 2001. The original issue amount for the 2003 issue was \$6,776,652 and will be repaid in semi-annual installments beginning December 30, 2003 and ending June 30, 2028. Interest shall be paid at a variable rate ranging from 1.50% to 6.27%.

## Note 9 - Long-Term Debt (continued)

Year Ending June 30th	Principal	Interest	Total	Interest Rate
2014	\$ 183,163	\$ 348,296	\$ 531,459	5.33%
2015	182,339	374,120	556,459	5.54%
2016	183,194	403,265	586,459	5.63%
2017	183,592	432,867	616,459	5.71%
2018	182,339	464,120	646,459	5.71%
2019-2023	895,168	2,842,126	3,737,294	5.71 - 6.15%
2024-2028	3,555,000	589,119	4,144,119	5.68 - 6.22%
Total	\$ 5,364,795	5,453,913	\$10,818,708	

## **Qualified Zone Academy Bonds – 2005**

On August 30, 2005, the District issued Qualified Zone Academy Bonds (QZAB) in the amount of \$500,000. The bonds were purchased by Bank of America in accordance with Section 1397E of the Internal Revenue Code, and as such qualified for tax credits relating to the transaction. The bond proceeds must be used to provide for facility preservation and major maintenance in accordance with the District's QZAB financing plan.

To qualify for use of the QZAB proceeds, individual schools must qualify by meeting federal guidelines for certain economic demographics. The primary uses of the funds will be for renovations of the secondary schools in the District. In addition, initial funding for SB 1149 energy efficiency projects will be provided by QZAB proceeds so that projects can move forward in a timely manner. As SB 1149 funds become available in future years, they will then be utilized to repay a portion of the QZAB debt.

As a result of the structure of the QZAB issue and the Bank tax credits, the District will be required to repay \$412,864 in total payments over the 16-year term. The difference between the bond proceeds in the amount of \$500,000 and the repayment of \$412,864 was recognized during the year of issuance.

The District will make annual principal payments in the amount of \$25,804 through 2022. The agreement bears no interest and imputed interest of 2 percent was considered immaterial to the financial statements. The payments will be placed in escrow at the purchaser's discretion, and principal payments and guaranteed interest payments on the escrow will be applied to the District obligation.

## Full Faith Obligation Bonds – 2007

On August 16, 2007, the District issued Full Faith Obligation Bonds for the construction of a new gymnasium at the District's middle school and to pay the cost of issuance. The bonds were issued in the amount of \$3,000,000 and mature between 2010 and 2017. They bear interest rates ranging from 4% to 4.25%. These bonds are considered to be defeased at June 30, 2012 because on March 27, 2012, the District refinanced \$1,975,000 of the 2007 full Faith Obligation Bonds. These new bonds, Series 2012, are payable over five years with an interest rate of 2 - 3 %.

Year Ending June 30th	F	Principal	I	nterest	 Total	Interest Rate
2014	\$	380,000	\$	39,400	\$ 419,400	2.00%
2015		390,000		31,800	421,800	2.00%

2017		405,000		12,150	417,150	3.00%
Total	\$	1,570,000	\$	107,350	\$ 1,677,350	

## Note 9 - Long-Term Debt (continued)

## **Qualified School Construction Bond (QSCB)**

On October 12, 2010, the District issued Qualified School Construction Bonds (QSCB) in the amount of \$500,000. The monies were used for repairs and upgrades and weatherization projects through the District. The QSCB's are eligible to receive subsidy payments from the United States Treasury. The District plans to apply any subsidy payments received to offset the interest component of the financing, but those subsidy payments are not pledged for this purpose. Interest is payable semi-annually each December 31 and June 30, commencing June 30, 2013. Final maturity on these bonds is June 30, 2017. The District will receive approximately \$212,000 in direct subsidy payments from the United States Treasury over the life of the bond.

Year Ended	P	Principal		District's Interest Payments Net		Federal Insterest Subsidy	 Total
2014	\$	30,000	\$		1,050	\$ 20,160	\$ 51,210

## **Qualified School Construction Bond (QSCB) 2012**

On January 19, 2012, the District issued Qualified School Construction Bonds (QSCB) in the amount of \$350,000. The monies are for repairs and weatherization projects throughout the District. Interest is payable semi-annually each December and June, commencing December 2012. The final maturity on these bonds is June 2030. The interest rate on these bonds is 4.80%.

						_	

## Note 9 - Long-Term Debt (continued)

The District also has the following changes in Long Term Debt:

	Balance 7/1/2012	Earned	Used	Balance 6/30/2013	Due Within 1 Year
Compensated absences	\$ 81,256	\$ 93,181	\$ (96,915)	\$ 77,522	\$ 77,522

## Note 10 – Interfund Transactions

Interfund transfers during the year ended June 30, 2013, were as follows:

	Т	ransfers	Transfers
		In	Out
General Fund	\$	174,252	 702,968
Special Revenue Fund		7,298	-
Debt Service Fund		495,670	208,750
Capital Projects Fund		234,498	 
Total Transfers for governmental funds	\$	911,718	\$ 911,718

The District made transfers from the General Fund of \$528,716. The Special Revenue Fund received \$7,298 for the cafeteria on-going operations. Debt Service Fund received \$286,920 to pay Debt Service on the various debt issues. The Capital Projects Fund received \$234,498 to pay for various construction and repair projects. The transfers occurred to supplement current operations. All transfers were budgeted.

## Note 11 – Pension Plan

The District contributes to two pension plans administered by the Oregon Public Employees Retirement System (PERS). The Oregon Public Employees Retirement Fund (OPERF) applies to the District's contribution for qualifying employees who were hired before August 29, 2003, and is a cost-sharing multiple-employer defined benefit pension plan. The Oregon Public Service Retirement Plan (OPSRP) is a hybrid successor plan to the OPERF and consists of two programs: The Pension Program, the defined benefit portion of the plan, applies to qualifying District employees hired after August 29, 2003, and to inactive employees who return to employment following a six-month or greater break in service. Benefits are calculated by a formula for members who attain normal retirement age. The formula takes into account final average salary and years of service. Beginning January 1, 2004, all PERS member contributions go into the Individual Account Program (IAP), the defined contribution portion of the plan. PERS members retain their existing PERS accounts, but any future member contributions are deposited into the member's PERS account.

Both PERS plans provide retirement and disability benefits, post employment healthcare benefits, annual cost-of-living adjustments, and death benefits to plan members and beneficiaries. PERS is administered under Oregon Revised Statute Chapter 238, which establishes the Oregon Public Employees Retirement Board (OPERB) as the governing body of PERS. PERS issues a publicly available financial report that includes financial statements and required supplementary information. The report may be obtained by writing to PERS, PO Box 23700, Tigard, OR, 97281-3700 or by calling 503-598-7377.

## Note 11 – Pension Plan (continued)

Covered employees are required by state statute to contribute 6.00% of their annual salary to the system, but the employer is allowed to pay any or all of the employees' contribution in addition to the required employers' contribution. The District is required by ORS 238.225 to contribute at an actuarially determined rate for the qualifying employees under the OPERF plan, and a general service rate for the qualifying employees under the OPERF and the OPSRP rates in effect for the year ended June 30, 2013 were .37% and .37% respectively. The contribution requirements for plan members are established by ORS Chapter 238 and may be amended by an act of the Oregon Legislature. The District's contributions to PERS for the years ending June 30, 2013, 2012, and 2011 were \$407,713, \$405,660, and \$417,720, respectively, equal to the required contributions for each year. The District has included the prepaid pension assets in the Statement of Net Position and will amortize the asset over 25 years effectively reducing the annual future pension required contribution to below the annual pension cost.

## Note 12 – Contingencies

Amounts received or receivable from grantor agencies are subject to compliance audits by grantors or their representatives. The amount, if any, of expenditures which may be disallowed by the granting agencies cannot be determined at this time although the District expects such amounts, if any, to be immaterial.

The School District has elected, under the State Unemployment Act of July 1, 1974, to reimburse the State Employment Department for any claims paid. Reimbursements are made from the District's Unemployment Insurance Fund. The District is unable to determine at this time the amount of the contingent liability for potential unemployment insurance claims.

## Note 13 – Current Vulnerability Due to Certain Concentrations

The District's operations are concentrated within Douglas County. In addition, substantially all the District's revenues for continuing operations are from federal, state, and local government agencies. In the normal course of operations, the District receives grant funds from various Federal and State agencies. The grant programs are subject to audit by agents of the granting authority, the purpose of which is to ensure compliance with conditions precedent to the granting of funds. Any liability for reimbursement which may arise as the result of these audits is not believed to be material.

## Note 14 – Risk Management

The District is exposed to various risks of loss related to torts; theft of, damage to and destruction of assets; errors and omissions; and natural disasters for which the District carries commercial insurance. Worker's compensation insurance is also provided through a commercial carrier. There has been no significant reduction in insurance coverage from the prior year and the District has not been required to pay any settlements in excess of insurance coverage during the past three fiscal years ending June 30, 2013.

## Note 15 – Economic Dependency

Statement of Financial Accounting Standards (SFAS) No. 14 requires disclosure in financial statements of a situation where one entity provides more than 10% of the audited entity's revenue. The Basic School Support funding provided by the state to all public school systems in Oregon is primarily based on student enrollment. The State provided \$7,670,635 to the District, which represents approximately 55% of the District's total general revenues for the year.

## Note 16 – Subsequent Events

Management of the District has evaluated events and transactions occurring after June 30, 2013 through the date of the financial statements were available for issuance, for recognition and/or disclosure in the financial statements. There were no additional events and/or transactions that required recognition and disclosure in the financial statements.

## INDEPENDENT AUDITOR'S REPORT REQUIRED BY OREGON STATE REGULATIONS

Board of Directors Douglas County School District No. 19 Myrtle Creek, Oregon

We have audited the basic financial statements of the Douglas County School District No. 19 as of and for the year ended June 30, 2013, and have issued our report thereon dated December 27, 2013. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller of the United States.

## Compliance

As part of obtaining reasonable assurance about whether Douglas County School District No. 19's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grants, including the provisions of Oregon Revised Statutes as specified in Oregon Administrative Rules 162-10-000 through 162-10-320 of the Minimum Standards for Audits of Oregon Municipal Corporations, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not the objective of our audit, and accordingly, we do not express such an opinion.

We performed procedures to the extent we considered necessary to address the required comments and disclosures but were not limited to the following:

- Deposit of public funds with financial institutions under ORS Chapter 295.
- Budgets legally required under ORS Chapter 294.
- Insurance and fidelity under bonds in force or required by law.
- Programs funded from outside sources.
- Investments of surplus funds authorized under ORS Chapter 294.
- Public contracts and purchasing under ORS Chapters 279A, 279B, 279C.
- Debt limitations under ORS Chapter 328.245

In connection with our audit, nothing came to our attention that caused us to believe Douglas County School District No. 19 was not in substantial compliance with certain provisions of laws, regulations, contracts, and grants, including the provisions of Oregon Revised Statutes as specified in Oregon Administration Rules 162-10-000 through 162-10-320 of the Minimum Standards for Audits of Oregon Municipal Corporations.

Board of Directors Douglas County School District No. 19 Myrtle Creek, Oregon

## **Accounting Systems and Internal Controls**

The District's accounting and internal controls systems are adequate and the accounting records are properly maintained. The internal controls for the District are operating as designed and no material weaknesses were noted.

## Collateral

Based on our review of the District's records, the District was in compliance with the provisions of ORS Chapter 295. The banks used by the District were considered qualified financial institutions for the year ended June 30, 2013.

## Budget Compliance

We reviewed the preparation, adopting, and execution of the budget for the current year and the preparation and adoption of the ensuing year's budget. Based on our procedures, the District appears to have complied with statutory requirements for the current year and the ensuing year's budget.

A resolution authorizing appropriations for each fund sets the level by which expenditures cannot legally exceed appropriations. Appropriations are established by function Instruction, Supporting Services, Community Services, Facilities Acquisition and Construction, Debt Service, Transfers to other funds and Contingency). The District did not exceed its authorized appropriations for the year ended June 30, 2013.

#### Insurance and Fidelity Bond Coverage

We reviewed the District's insurance policies and determined that such policies appeared to be in force at June 30, 2013. We are not competent by training to comment on the adequacy of the insurance policies covering District owned property at June 30, 2013.

Based on the results of our tests, the District has complied with the provisions of ORS 332.525 regarding the bonding of District personnel.

#### Indebtedness

The District's bonded indebtedness was in compliance with the provisions of ORS 328.245. The District was in compliance with all debt covenants and all payments were made on a timely basis.

## **Programs Funded From Outside Sources**

We selected and tested, to the extent deemed appropriate, transactions, records, and reports relative to programs funded wholly or partially by other governmental agencies.

The results of our tests indicate, for the items tested, the District complied with the laws, rules, and regulations pertaining to programs funded wholly or partially by other governmental agencies, and for the items tested, financial reports and related data were in agreement with and supported by the accounting records.

Separate reports have been issued to report on compliance with appropriate laws and regulations pertaining to Federal Financial Awards.

Board of Directors Douglas County School District No. 19 Myrtle Creek, Oregon

## Investments

Based on our procedures, it appears that the District was in compliance with the legal requirements of ORS Chapter 294 pertaining to the investment of public funds.

## **Public Contracts and Purchasing**

Based on our procedures and our review of the minutes, the District appears to have complied with the legal requirements pertaining to the awarding of public contracts and the construction of public improvements as contained in ORS Chapter 279.

## **State School Fund Distribution Factors**

Based on our procedures, the District appears to have complied with the legal requirements as stated in ORS 327.013 and as further defined by the Oregon State Department of Education pertaining to the District's calculation and reporting of the factors used to compute the State School Fund distribution.

## Internal Control

In planning and performing our audit, we considered the Douglas County School District No. 19 internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Douglas County School District No. 19's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of Douglas County School District No. 19's internal county School District No.

No material weakness or significant deficiencies relating to the audit of the basic financial statements are reported in the report on compliance and on internal control over financial reporting based on an audit of financial statements performed in accordance with *Government Auditing Standards*.

This report is intended solely for the information and use of the Board of Directors and management of Douglas County School District No. 19 and the State of Oregon, Division of Audits and is not intended to be and should not be used by anyone other than these specified parties.

## INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

Board of Directors Douglas County School District No. 19 Myrtle Creek, Oregon

We have audited, in accordance with the auditing standards generally accepted in the United states of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the comptroller General of the United States, the financial statements of the governmental activities and each major fund of Douglas County School District No. 19 (the District), as of and for the year ended June 30, 2013, and the related notes to the financial statements, which collectively comprise the District's basic financial statements and have issued our report thereon dated December 27, 2013.

## **Internal Control Over Financial Reporting**

In planning and performing our audit of the financial statements, we considered the District's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the District's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the District's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or, significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Board of Directors Douglas County School District No. 19 Myrtle Creek, Oregon

## **Compliance and Other Matters**

As part of obtaining reasonable assurance about whether the District's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

## Purpose of this report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the District's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

## INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR EACH MAJOR PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY OMB CIRCULAR A-133

Board of Directors Douglas County School District No. 19 Myrtle Creek, Oregon

## **Report on Compliance for Each Major Federal Program**

We have audited Douglas County School District No. 19'S (the District), compliance with the types of compliance requirements described in the *OMB Circular A-133 Compliance Supplement* that could have a direct and material effect on each of the District's major federal programs for the year ended June 30, 2013. The District's major federal programs are identified in the summary of auditor's results section of the accompanying Schedule of Findings and Questioned Costs.

#### Management's Responsibility

Management is responsible for compliance with the requirements of laws, regulations, contracts, and grants applicable to its federal programs.

## Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of the District's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of the District's compliance.

#### **Opinion on Each Major Program**

In our opinion, the District, complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2013.

Board of Directors Douglas County School District No. 19 Myrtle Creek, Oregon

## **Report on Internal Control Over Compliance**

Management of the District is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the District's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with OMB Circular A-133, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the District's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance has a deficiency or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of OMB Circular A-133. Accordingly, this report is not suitable for any other purpose.

Michael L. Piels CPAs, LLP Medford, Oregon December 27, 2013

#### Note A - Significant accounting policies

The accompanying schedule of expenditures of federal award is a summary of the activity of the District's federal award programs presented on the accrual basis of accounting in accordance with generally accepted accounting principles and OMB Circular A-133, *Audits of States, Local Governments and Non-Profit Organizations*. Therefore, some information presented in this schedule may differ from amounts presented in, or used in, the preparation of the financial statements.

#### Note B - Food distribution

Nonmonetary assistance is reported in the schedule at the fair market value of the commodities received and disbursed.

#### Note C - Interest Subsidy Payment Received

In prior fiscal years, the District received two Qualified School Construction Bonds, for \$500,000 in 2010 and \$350,000 in 2012. During this fiscal year, the District received \$44,833 in an interest subsidy from the US Treasury, which was used to reduce interest payments made by the District.

## DOUGLAS COUNTY SCHOOL DISTRICT NO. 19 SCHEDULE OF FINDINGS AND QUESTIONED COSTS YEAR ENDED JUNE 30, 2013

## SECTION I: SUMMARY OF AUDIT RESULTS

## Financial statements

- 1. The auditor's report expresses an unmodified opinion on the basic financial statements of Douglas County School District No. 19.
- 2. No significant deficiencies or material weakness in internal controls were disclosed by the audit of the basic financial statements of Douglas County School District No. 19.
- 3. No instances of noncompliance material to the financial statements of Douglas County School District No. 19 were disclosed during the audit.

## Federal Awards

- 4. No significant deficiencies or material weakness in internal control over major programs were disclosed by the audit process.
- 5. The auditor's report on compliance for the major federal award programs for Douglas County School District No. 19 expresses an unqualified opinion.
- 6. The audit disclosed no findings that are required to be reported in accordance with section 510(a) of OMB Circular A-133.
- 7. The programs tested as major programs include:
  - U.S. Department of Education

Title I

CFDA # 84.010

- 8. The threshold for distinguishing Types A and B Programs was \$300,000.
- 9. Douglas County School District No. 19 was determined to be a low-risk auditee under the criteria specified in OMB Circular A-133.

## SECTION II: FINANCIAL STATEMENT FINDINGS

None

## SECTION III: FEDERAL AWARD FINDINGS AND QUESTIONED COSTS

None
