## INDEPENDENT AUDITOR'S REPORT

Board of Directors  
Douglas County School District No. 19  
Myrtle Creek, Oregon

### Report on the financial Statements

We have audited the accompanying financial statements of the governmental activities and each major fund of Douglas County School District No. 19 (the District) as of and for the year ended June 30, 2017, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

### *Management's Responsibility for the Financial Statements*

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

### *Auditor's Responsibility*

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimated made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

### *Opinions*

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities and each major fund of the District as of June 30, 2017, and the respective changes in financial position for the year then ended in accordance with accounting principles generally accepted in the United States of America.

### ***Emphasis of Matter***

As discussed in note 2 to the financial statements, in 2017 the District adopted new accounting guidance, GASB Statement No. 73, *Accounting and Financial Reporting for Pensions and Related Assets That Are Not within the Scope of GASB 68, and Amendments to Certain Provisions of GASB Statement 67 and 68*, and GASB Statement No. 75, *Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions*. Our opinions are not modified with respect to this matter.

### ***Other Matters***

#### ***Required Supplementary Information***

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis, the General Fund and Special Revenue Fund budgetary comparison information, certain other postemployment benefit schedules, and certain pension schedules as listed in the Table of Contents be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the *Governmental Accounting Standards Board*, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the management's discussion and analysis, certain other postemployment benefit schedules, and certain pension schedules in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the management's discussion and analysis, certain other postemployment benefit schedules, and certain pension schedules because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance. The General Fund and Special Revenue Fund budgetary comparison information are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the General Fund and Special Revenue Fund budgetary comparison information is fairly stated in all material respects, in relation to the financial statements as a whole.

#### ***Other Supplementary Information***

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The other supplementary information as listed in the Table of Contents, is presented for the purposes of additional analysis and is not a required part of the financial statements. The schedule of expenditures of federal awards, as listed in the Table of Contents, is presented for purposes of additional analysis as required by Title 2 U.S. Code of Federal Regulations (CFR) Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*, and is also not a required part of the basic financial statements.

The other supplementary information and the schedule of expenditures of federal awards are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America.

In our opinion, the supplementary information and the schedule of expenditures of federal awards is fairly stated in all material respects in relation to the financial statements as a whole.

***Other Reporting Required by Government Auditing Standards and Oregon State Regulation***

In accordance with *Government Auditing Standards*, we have also issued a report dated December 22, 2017, on our consideration of the District's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control over financial reporting and compliance.

In accordance with Oregon State Regulation, we have also issued our report dated December 22, 2017 on our consideration of the District's compliance with certain provisions of laws, regulations, contracts, and grants, including the provisions of Oregon Revised Statutes (ORS) as specified in Oregon Administrative Rules 162-10-0000 through 162-10-0320 of the Minimum Standards for Audits of Oregon Municipal Corporations. The purpose of that report is to describe the scope of our testing necessary to address the required provisions of ORS, and not to provide an opinion on compliance with such provisions.

**Management's Discussion and Analysis (MD&A)**  
**For the Fiscal Year Ended June 30, 2017**

As management of the Douglas County School District #19 (District), we offer readers of the District's financial statements this narrative overview and analysis of the financial activities of the District for the fiscal year ended June 30, 2017. We encourage readers to consider the information presented here in conjunction with the District's financial statements, which immediately follow this section.

**Financial Highlights**

- The District's financial status reflects an increase in government-wide net position for the 2017 fiscal year. Overall net position increased by \$1,324,149 or 22.8% from the previous year.
- General revenues accounted for \$13.78 million in revenue, or 81.6% of all fiscal year revenues. Program specific revenues in the form of charges for services, grants and donations accounted for \$3.11 million or 18.4% of total fiscal 2017 revenues.
- The District had \$15.57 million in expenses related to governmental activities; of which \$3.11 million were expenses offset by program specific charges for services, grants and donations. General revenues of \$13.78 million were more than adequate to provide for the remaining costs of these programs and services which accounts for the increase in net assets.
- The General Fund had \$14.06 million in fiscal year 2017 revenues, which primarily consisted of state school support and property taxes. Expenditures totaled \$12.80 million. The General Fund's fund balance, before interfund transfers, increased \$1.27 million from the previous year.
- The Special Revenue Fund, a District major fund, had \$2.75 million in fiscal year 2017 revenues and \$2.71 million in expenditures before interfund transfers.
- The Debt Service Fund, another District major fund, had \$1.25 million in fiscal year 2017 revenues and \$1.68 million in expenditures before interfund transfers.
- The Capital Projects Fund is the last District major fund. It had bond proceeds of \$1.5 million for fiscal year 2017 and \$1.46 million in expenditures before interfund transfers.
- The District's total long-term debt increased by \$736,564 during the current fiscal year.

**Overview of the Financial Statements**

This annual report consists of three parts: management's discussion and analysis (this section), the basic financial statements, and required supplementary information. The basic financial statements comprise three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

Figure A-1 summarizes the major features of the District's financial statements, including the portion of the District's activities they cover and the types of information they contain. The remainder of this overview section of management's discussion and analysis highlights the structure and contents of each of the statements.

**Government-wide Financial Statements**

The *government-wide financial statements* are designed to provide readers with a broad overview of the District's finances, in a manner similar to a private-sector business. The statement of net assets includes all of the District's assets and liabilities. All of the current year's revenues and expenses are accounted for in the statement of activities regardless of when cash is received or paid.

The two government-wide financial statements report the District's *net position* and how it has changed. Net position, the difference between the District's assets/deferred outflows and liabilities/deferred inflows, is one way to measure the District's financial health or position.

Over time, increases or decreases in the District's net position are an indicator of whether its financial position is improving or deteriorating, respectively.

To assess the District's overall health, you need to consider additional non-financial factors such as changes in the District's enrollment, which dictates the majority of revenue to be collected through the State Funding Formula, and the condition of school buildings and other facilities.

The *statement of activities* presents information showing how the District's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, *regardless of the timing of related cash flows*. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused compensated absences).

The government-wide financial statements outline functions of the District that are principally supported by intergovernmental revenues (*State School Support*) and property tax revenues. The governmental activities of the District include instruction, instructional support services, operation and maintenance of plant facilities and services, student transportation, and non-instructional support services. The government-wide financial statements can be found on pages 1-2 of this report.

**Fund Financial Statements**

A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The District uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the District can be divided into two categories: governmental funds and fiduciary funds.

*Governmental funds.* Governmental funds are used essentially to account for the ongoing activities of government that are financed with general government revenues in the form of taxes, license fees, grants and entitlements. They are also used to record the acquisition of general governmental assets. However, unlike the government-wide financial statements, governmental fund financial statements focus on short-term inflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating the District's short-term financial requirements. Statements tell how basic services such as regular and special education were financed in the short term as well as what remains for future spending.

DOUGLAS COUNTY SCHOOL DISTRICT No. 19  
Management's Discussion and Analysis (MD&A)  
For the Fiscal Year Ended June 30, 2017

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the District's short-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities. These reconciliations are on pages 4 and 6, respectively.

The District maintains four individual governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures, and changes in fund balances for the General Fund, Special Revenue Fund, Debt Service Fund, and Capital Projects Fund, which are all considered major funds. The basic governmental fund financial statements can be found on pages 3 and 5 of this report.

*Fiduciary funds.* Fiduciary funds are used to account for assets held by the District as trustee or agent. Each trust fund is treated for accounting measurement purposes in a manner similar to either a governmental fund or a proprietary fund. Expendable trust funds are accounted for in essentially the same manner as governmental funds. Nonexpendable trust funds and pension trust funds are accounted for in essentially the same manner as proprietary funds. Agency funds are purely custodial (assets equal liabilities) and thus do not involve measurements of results of operations.

Fiduciary funds are *not* reflected in the government-wide financial statements because the resources of these funds are *not* available to support the District's own programs. The accrual basis of accounting is used for fiduciary funds. The District closed out all of its fiduciary funds during the previous fiscal year.

### **Notes to the Financial Statements**

The financial statements also include notes that explain some of the information in the statements and provide more detailed data. This information is essential to a full understanding of the data provided in this report. The notes to the financial statements can be found on pages 7 - 40 of this report.

### **Other information**

In addition to the basic financial statements and accompanying notes, this report also presents certain *required supplementary information* that further explains and supports the financial statements with a comparison of the District's budget for the General Fund and the major Special Revenue Fund. Figure A-1 shows how the various parts of this annual report are arranged and related to one another. The required supplementary information can be found on pages 41 - 45 of this report.

Additionally, other major fund budget comparisons for the Debt Service Fund and Capital Projects Fund not required to be presented are included for further clarity and understanding. These fund schedules can be found on pages 46 and 47 of this report.

### **Government-Wide Financial Analysis**

The District's combined net position reflects an increase of approximately 22.8% as of June 30, 2017. This increase is primarily due to increased income from the State government in the current year.

DOUGLAS COUNTY SCHOOL DISTRICT No. 19  
Management's Discussion and Analysis (MD&A)  
For the Fiscal Year Ended June 30, 2017

By far the largest portion of the District's net position is reflected in its investment in capital assets (e.g., land and improvements, buildings and improvements, vehicles, furniture and equipment), less any related debt used to acquire those assets that is still outstanding. The District uses these capital assets to provide services to its students; consequently, these assets are *not* available for future spending. Although the District's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

The District's financial position is the product of several financial transactions including the net results of activities, the acquisition and payment of debt, the acquisition and disposal of capital assets, and the depreciation of capital assets.

The following table presents a summary of the District's net position for the fiscal years ended June 30, 2017 and June 30, 2016:

Change in Net Position	<u>\$ 1,324,149</u>	<u>\$ 294,497</u>

The cost of all governmental activities this year was \$15.57 million. Federal and state governments and charges for services subsidized certain programs with grants and contributions and other local revenues in the amount of \$3.11 million. The resulting net cost of governmental activities of \$12.46 million was financed by general revenues, which are primarily made up of state school support funds, property taxes, federal forest fees, and the utilization of reserves.

#### Financial Analysis of the District's Funds

As noted earlier, the District uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

**Governmental Funds:** The focus of the District's governmental funds is to provide information on short-term inflows, outflows, and balances of expendable resources. Such information is useful in assessing the District's financing requirements. In particular, unassigned fund balance may serve as a useful measure of the District's net resources available for spending at the end of the fiscal year.

**DOUGLAS COUNTY SCHOOL DISTRICT No. 19**  
**Management's Discussion and Analysis (MD&A)**  
**For the Fiscal Year Ended June 30, 2017**

The financial performance of the District as a whole is reflected in its governmental funds. As the District completed the year, its governmental funds reported a combined fund balance of \$3,570,308, an increase of \$918,006 from the prior year. The fund balance constitutes unassigned, assigned, committed, restricted, and nonspendable amounts. Of the current fund balance, \$1,696,937 is unassigned and available for spending at the District's discretion, \$261,613 is assigned for specific programs, \$443,110 is restricted for debt service, \$30,035 is nonspendable and reserved to pay prepaids, \$1.10 million is committed for the payment of pension bond debt and \$38,765 is committed for capital projects.

The General Fund is the principal operating fund of the District. The increase in fund balance in the General Fund for the fiscal year was \$722,155, namely a result of increasing revenues. The combined fund balances of all other funds increased by \$195,851 during the fiscal year. Slight gains in the Special Revenue Fund, the Debt Service Fund and the Capital Projects Fund account for the remaining increase.

**Budgetary Highlights**

General Fund revenues were budgeted and anticipated to be collected in the amount of \$13.06 million during the fiscal year. State funding increased for the new biennium. Enrollment continued to remain relatively stable within the District. Even with the increase in funding from the State, the uncertainty of State funding going forward prompted the District to continue to be conservative on its revenue and expenditure budgeting. The District received \$14.06 million in revenue during the fiscal year. Revenues for the year exceeded spending, leading to an increase in the General Fund ending balance of \$722,155.

**Capital Assets**

As of June 30, 2017, the District had invested \$29.33 million in capital assets, including school buildings, athletic facilities, land, vehicles, computers and other equipment and furnishings. This amount represents a net increase, prior to depreciation, of \$1,557,696 from last year. Total depreciation expense for the year was \$432,708. Additional information on the District's capital assets can be found in Note 1 and Note 5 on pages 11 and 19 respectively, of this report.

**Economic Factors, Next Year's Budget, and Rates**

The District is in a good financial position for the remainder of the 2017-19 biennium. Conservative budgeting and spending practices, combined with an unexpected enrollment increase, have provided the District with an unexpected uptick in State funding and a healthy reserve. This should allow the District to maintain people and programs through the end of the biennium while keeping a cautious eye to the future. The District anticipates a 4+% increase in its Tier I/II PERS costs in the next biennium. Measure 101's is on the statewide ballot in January 2018 and its failure could negatively impact State funding in the current and subsequent biennia.

The District continues to make rough budget projections three years out in an effort to judge the effects of enrollment trends, the economy, and collective bargaining agreements on the District's current and future resources and reserves. This process of looking forward helps the District understand implications that current budgets could have on future years.

Revenue in the District's budget was increased over \$1 million in 2017-18 to \$15.24 million, namely due to increased per student funding from the State, an unexpected enrollment increase, and a healthy reserve from 2016-17. Outside the State School Fund, other revenues either remained relatively flat or were projected to have slight increases or decreases. Based on these and other factors, the budgeted expenditures in the General Fund were increased to \$14,473,929 for fiscal year 2017-18. The District was able to return to budgeting its ending fund balance at 5% while preserving its current service levels. We believe we will still finish the year with over 5% in reserve.

**DOUGLAS COUNTY SCHOOL DISTRICT No. 19**  
**Management's Discussion and Analysis (MD&A)**  
**For the Fiscal Year Ended June 30, 2017**

Based on the November 30, 2017 estimates from the Oregon Department of Education, for fiscal year 2017-18 the District is expected to receive \$900,000 more from the State School Support Fund in comparison to the prior year. This increase is due to a significant increase in per student funding from the State and the District's unexpected enrollment increase.

District enrollment is currently almost 60 students above budgeted estimates. The District is hoping these new students remain in the District. As the funding for schools is based on a per student basis, any increase is good for the future revenues of the District. Until there are greater employment and housing opportunities in our area, however, it is difficult to predict if this trend will continue.

Looking ahead to 2018-19, the District has a bit of relief for the first time in years. State funding has increased, enrollment is up, and reserves are healthy. These conditions have not been seen in the District in over a decade. PERS rates are set for significant increases around the State in the coming biennia and the District will no longer be able to dodge a rate increase, though the District's increase for the next biennium is one of the lowest in the State. Minimizing payroll growth has helped keep PERS rates from increasing for the last few biennia but the District will need to remain vigilant with payroll growth going forward to mitigate significant rate increases in the future as PERS rates are set to continue to significantly increase for some time to come.

The District's facilities remain in desperate need of repair or replacement but three attempts at a bond levy to remedy the situation have failed so the District is evaluating its next steps. The District is evaluating another bond levy and what that facility plan looks like. As the District's reserves have increased the plan is to use some of the surplus for some much needed deferred maintenance. The Coffenberry Gym loan has been paid off and the monies are now being used to pay for the loan for the high school roof replacement. Including the current year, the District has five years until this new loan is paid off.

Bargaining with the Classified bargaining group will take place at some point in the spring. The District will work to bargain a contract that is reasonable, affordable, and sustainable. If the District can maintain its ending fund balance at or greater than 5%, it should be able to maintain current service levels, provide fair contracts to employees, be able to weather any PERS rate increases, make some much needed facility repairs, and remain on a sound financial footing for years to come.

**Contacting the District's Financial Management**

This financial report is designed to provide our constituents, investors and creditors with a general overview of the District's finances and to demonstrate the District's accountability of its resources. If you have any questions about this report or need additional information, contact the Business Office, South Umpqua School District No. 19, 558 S.W. Chadwick Lane, Myrtle Creek, Oregon 97457.

Amounts reported for governmental activities in the Statement of Activities are different because:

Government funds report capital outlay as expenditures. However, in the Statement of Activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which depreciation exceeded capital outlays in the current period.

Expenditures for capital assets	\$ 1,669,831

Property taxes that do not meet the measurable and available criteria are not recognized as revenue in the current year in the governmental funds. In the Statement of Activities property taxes are recognized as revenue when levied.	13,043

## **NOTES TO FINANCIAL STATEMENTS**

**DOUGLAS COUNTY SCHOOL DISTRICT NO. 19**  
**Notes to Basic Financial Statements**  
**Year Ended June 30, 2017**

**Note 1 – Summary of Significant Accounting Policies**

**The Reporting Entity**

Douglas County School District No. 19 (the District), Myrtle Creek, Oregon, was organized under provisions of Oregon Statutes pursuant to ORS Chapter 332 for the purpose of operating elementary and secondary schools. The District is governed by a separately elected seven-member Board of Education (Board) who approves the administrative officials. The daily functioning of the District is under the supervision of the Superintendent. As required by generally accepted accounting principles, all activities of the District have been included in the basic financial statements.

The District qualifies as a primary government since it has a separately elected governing body, is a legally separate entity, and is fiscally independent. In evaluating how to define the District, for financial reporting purposes, management has considered all potential component units. The decision to include a potential component unit in the reporting entity was made by applying the criteria set forth in generally accepted accounting principles (GAAP). The basic-but not the only-criterion for including a potential component unit within the reporting entity is the governing body's ability to exercise oversight responsibility. The most significant manifestation of this ability is financial interdependency. Other manifestations of the ability to exercise oversight responsibility include, but are not limited to, the selection of governing authority, the designation of management, the ability to significantly influence operations, and accountability for fiscal matters. A second criterion used in evaluating potential component units is the scope of public service. Application of this criterion involves considering whether the activity benefits the District and/or its citizens, or whether the activity is conducted within the geographic boundaries of the District and is generally available to its citizens. A third criterion used to evaluate potential component units for inclusion or exclusion from the reporting entity is the existence of special financing relationships, regardless of whether the District is able to exercise oversight responsibilities. Based upon the application of these criteria, the District does not have any component units which require inclusion in the combined financial statements.

The more significant of the District's accounting policies are described below.

**Basis of Presentation**

The financial statements of Douglas County School District No. 19 have been prepared in conformity with accounting principles generally accepted in the United States of America (GAAP) as applied to government units. The Governmental Accounting Standards Board is the accepted standard-setting body for establishing governmental accounting and financial reporting principles.

**Government-wide Financial Statements**

The Statement of Net Position and the Statement of Activities display information about the District. These statements include the governmental financial activities of the overall District. Eliminations have been made to minimize the double counting of internal activities. Governmental activities are financed primarily through property taxes, intergovernmental revenues, and charges for services.

The Statement of Activities presents a comparison between direct expenses and program revenues for each of its functions/programs. Direct expenses are those that are specifically associated with a function and, therefore, are clearly identifiable to that function. Eliminations have been made to minimize the double counting of internal activities in the Statement of Activities. Program revenues include: (1) charges to students or others for tuition, fees, rentals, material, supplies or services provided, (2) operating grants and contributions and (3) capital grants and contributions. Revenues that are not classified as program revenues, including property taxes and state support, are presented as general revenues.

**DOUGLAS COUNTY SCHOOL DISTRICT NO. 19**  
**Notes to Basic Financial Statements**  
**Year Ended June 30, 2017**

**Note 1 – Summary of Significant Accounting Policies (continued)**

**Government-wide Financial Statements (continued)**

The District operates and reports only governmental funds. Therefore, financial statements have only been prepared for the governmental funds.

Net position is reported as restricted when constraints placed on assets used are either externally restricted, imposed by creditors (such as through grantors, contributors or laws) or through constitutional provisions or enabling resolutions.

**Fund Financial Statements**

The fund financial statements provide information about the District's funds. Separate statements for each fund category are presented. The emphasis of fund financial statements is on major governmental funds, each displayed in a separate column. All the District's funds are categorized as major funds.

The District reports the following major governmental funds:

*General Fund* - This is the District's primary operating fund and accounts for all revenues and expenditures except those required to be accounted for in another fund.

*Special Revenue Fund* - This fund accounts for revenue sources that are restricted or committed to expenditure for specific purposes. This fund accounts for the revenues and expenditures related to Federal and State grants, as well as those related to student body activities.

*Debt Service Fund* - This fund accounts for the servicing of general long-term debt not being financed by the General Fund. For the District, this includes the 2002, 2003 and 2012 PERS Bonds, the 2007 and 2012 and 2017 Full Faith Obligation Bonds and the QZAB and QSCB Bonds. The principal source of revenues are interest subsidies and other local revenues.

*Capital Projects Fund* - This fund accounts for the acquisition, construction and maintenance of improvements within the District. The principal revenue source is debt proceeds.

**Measurement Focus and Basis of Accounting**

Government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded at the time liabilities are incurred, regardless of when the related cash flows take place. Non-exchange transactions, in which the District receives value without giving equal value in exchange, include property taxes, grants, entitlements and donations. On the accrual basis of accounting, revenue from property taxes is recognized in the fiscal year for which the taxes are levied. Revenue from grants, entitlements, and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied. As a general rule the effect of interfund activity has been eliminated from the governmental-wide financial statements.

**DOUGLAS COUNTY SCHOOL DISTRICT NO. 19**  
**Notes to Basic Financial Statements**  
**Year Ended June 30, 2017**

**Note 1 – Summary of Significant Accounting Policies (continued)**

**Measurement Focus and Basis of Accounting (continued)**

Governmental fund financial statements are reported using the current financial resources measurement focus and modified accrual basis of accounting. Under this method, revenues are recognized when measurable and available. The District considers all revenues reported in the governmental funds to be available if they are collected within sixty days after year-end. Property taxes and interest are considered to be susceptible to accrual. Expenditures are recorded when the related fund liability is incurred, except for principal and interest on general long-term debt, which are recognized as expenditures to the extent they have matured, certain compensated absences which are recognized when the obligations are expected to be liquidated with expendable available financial resources, and early retirement benefits which are recorded when paid. Capital asset acquisitions are reported as expenditures in the governmental funds and proceeds from general long-term debt and acquisitions under capital leases are reported as other financing sources.

**Cash, Cash Equivalents and Investments**

The District's cash and cash equivalents consist of cash on hand, demand deposits, secured market deposit accounts, and short-term investments with original maturities of three months or less. Short-term investments are stated at cost which approximates fair value.

The District's investments, authorized under state statute, consist of banker's acceptances, commercial paper, U.S. Government Agency securities, and the State of Oregon Treasurer's Local Government Investment Pool (LGIP). Banker's acceptances, commercial paper and U.S. Government Agency securities are stated at amortized cost which approximates fair value. The LGIP is stated at cost which approximates fair value. Fair value of the LGIP is the same as the District's value in the pool shares.

The Oregon State Treasury administers the LGIP. It is an open-ended no-load diversified portfolio offered to any agency, political subdivision or public corporation of the State that by law is made the custodian of, or has control of, any fund. The LGIP is commingled with the State's short-term funds. In seeking to best serve local governments of Oregon, the Oregon legislature established the Oregon Short-Term Fund Board. The purpose of the Board is to advise the Oregon State Treasury in the management and investment options of the LGIP. The investments are regulated by the Oregon Short Term Fund Board and approved by the Oregon Investment Council (ORS 294.805 to 294.895).

**Assets Held by Trustee (Sinking Fund)**

During the fiscal year 2011-12 the District entered into a new loan agreement with the Bank of New York Mellon Trust Company, N.A. for \$350,000 at 4.80% interest to finance repairs and weatherization projects throughout the District. The District entered into an irrevocable election that the 2012B Obligations are treated as Qualified School Construction Bonds (QSCB). In addition to semi-annual interest payments, the District is to deposit annual payments of \$19,444 into a principal subaccount (sinking funds) every June 30 of each year starting in 2013 and ending in 2030. At June 30, 2017 the sinking fund for the Series 2012B Obligations was \$113,322.

**DOUGLAS COUNTY SCHOOL DISTRICT NO. 19**  
**Notes to Basic Financial Statements**  
**Year Ended June 30, 2017**

**Note 1 – Summary of Significant Accounting Policies (continued)**

**Assets Held by Trustee (Sinking Fund) (continued)**

During the fiscal year 2005-06 the District issued Qualified Zone Academy Bonds (QZAB) in the amount of \$500,000. The bonds were purchased by Bank of America in accordance with Section 1397E of the Internal Revenue Code, and as such qualified for tax credits relating to the transaction. The bond proceeds must be used to provide for facility preservation and major maintenance in accordance with the District's QZAB financing plan. Initial funding for SB 1149 energy efficiency projects will be provided by QZAB proceeds so that projects can move forward in a timely manner. As SB 1149 funds become available in future years, they will then be utilized to repay a portion of the QZAB debt. In addition the District is to deposit annual payments of \$25,804 into a principal subaccount (sinking funds) every August 30 of each year starting in 2006 and ending in 2021. At June 30, 2017 the sinking fund for the Series 2012B Obligations was \$329,788.

**Investment Income**

Investment income is composed of interest and net changes in the fair value of applicable investments. Investment income is included in other local revenue in the fund financial statements, and is allocated monthly to all funds based on the fund's average cash balance.

**Property Taxes Receivable**

Ad valorem property taxes are levied on all taxable property as of January 1 preceding the beginning of the fiscal year. Property taxes become a lien on July 1 for personal property and real property. Property taxes are levied on July 1. Collection dates are November 15, February 15, and May 15. Discounts are allowed if the amount due is received by November 15 or February 15. Taxes unpaid and outstanding on May 16 are considered delinquent.

Uncollected property taxes are recorded on the Statement of Net Position. Uncollected taxes are deemed to be substantially collectible or recoverable through liens; therefore, no allowance for uncollectible taxes has been established.

**Accounts and Other Receivables**

Accounts and other receivables are comprised primarily of State school support and claims for reimbursement of costs under various federal and state grants. Due to the nature of the receivables and the likelihood of collection, no provision for uncollectibles has been made.

**Grants**

Unreimbursed grant expenditures due from grantor agencies are reflected in the basic financial statements as receivables and revenues. Grant revenues are recorded at the time eligible expenditures are incurred. Grant monies received prior to the occurrence of qualifying expenditures are recorded as unearned revenue.

**Interfund Transactions**

Advances between funds are accounted for in the appropriate interfund receivable and payable accounts. These advances are considered "available spendable resources".

**DOUGLAS COUNTY SCHOOL DISTRICT NO. 19**  
**Notes to Basic Financial Statements**  
**Year Ended June 30, 2017**

**Note 1 – Summary of Significant Accounting Policies (continued)**

**Interfund Transactions (continued)**

Flows of cash from one fund to another without a requirement for repayment are reported as interfund transfers. Interfund transfers between governmental funds are eliminated in the Statement of Activities. Interfund transfers in the fund financial statements are reported as other financing sources/uses.

**Inventories**

Inventories consist of supplies held for sale. In the government-wide financial statements, inventories are stated at cost using the first-in, first-out (FIFO) method. In the fund financial statements, inventory is reported using the purchase method where purchases are charged to expense when purchased.

A portion of the inventory consists of donated United States Department of Agriculture (USDA) commodities. Commodities are recorded as expenditures when purchased and are stated at their fair market value based on guidelines provided by the USDA. Commodities on hand at year end are included on the Statement of Net Position.

**Capital Assets**

Capital assets are recorded at original or estimated original cost. Donated capital assets are recorded at their estimated fair market value on the date donated. The District defines capital assets as assets with an initial cost of more than \$5,000 and an estimated life in excess of one year. Interest incurred during construction is not capitalized. Maintenance and repairs that do not add to the value of the asset or materially extend assets' lives are not capitalized. Capital assets are depreciated using the straight-line method over the following useful lives:

Land improvements -	20 to 25 years
Buildings and improvements -	20 to 50 years
Vehicles, furniture, and equipment -	5 to 15 years

**Post-Employment Benefits**

The District's other post-employment benefit plan (OPEB) includes an implicit rate subsidy for medical insurance and a stipend benefit. GAAP requires biennial actuarial valuation of the District's OPEB. This valuation includes both eligible active employees and retirees. With each valuation, the net OPEB obligation or asset is determined, as well as an annual OPEB cost, which the District records in the government-wide financial statements.

**Retirement Plan**

Substantially all of the District's employees are participants in the State of Oregon Public Employees Retirement System (PERS). Contributions to PERS are made on a current basis as required by the plan and are charged as expenditures/expenses as funded.

**Notes to Basic Financial Statements**

**Note 1 – Summary of Significant Accounting Policies (continued)**

**Compensated Absences**

The District's employee vacation and sick leave policies generally provide for granting vacation and sick leave with pay. The current and long term liabilities for vested or accumulated vacation leave, compensatory time, and retirement benefits are reported on the government-wide financial statements. A liability for these amounts is reported in governmental funds only if they have matured, for example, as a result of employee leave or resignation.

No liability is recorded for non-vesting accumulating rights to receive sick pay benefits.

**Deferred Outflows/Inflows of Resources**

In addition to assets, the statements of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until then. The District has only one type of deferred outflow, which arises only under the full accrual basis of accounting that qualifies for reporting in this category.

The governmental funds report expense related to pension contributions. These amounts are deferred and recognized as an outflow of resources in the period that is actuarially determined.

In addition to liabilities, the statement of net position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition on net position that applies to a future period and so will not be recognized as an inflow of resources (revenue) until that time. The District has two types of deferred inflows, one which arises only under the modified accrual basis of accounting (unavailable revenues) and another that is reported under the full accrual basis of accounting (deferred amounts related to pensions). Accordingly, unavailable revenue, is reported only in the governmental funds balance sheet, and deferred amounts related to pensions, is reported in the government-wide statement of net position.

**Long-term Debt**

In the government-wide financial statements long-term debt is reported as a liability in the Statement of Net Position. Bond premiums and discounts are deferred and amortized over the life of the bonds using the straight-line method, which approximates the effective interest method. Bonds payable are reported net of the applicable bond premium or discount.

In the fund financial statements bond premiums and discounts are recognized when incurred and not deferred. The face amount of the debt issued, premiums received on debt issuances, and discounts are reported as other financing sources and uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as materials and service expenditures.

**Net Position and Fund Balances**

In the government-wide financial statements, equity is classified as net position and displayed in three components:

*Net investment in capital assets* – Consists of net capital assets reduced by outstanding balances of any related debt obligations and deferred inflows of resources attributable to the acquisition, construction, or improvement of those assets and increase by balances of deferred outflows of resources related to those assets.

*Restricted net position* – Consists of net position with constraints placed on the use by either (1) external groups such as creditors, grantors, contributors, or laws and regulations of other governments; or (2) law through constitutional provisions or enabling legislation. Restricted net position is reduced by liabilities and deferred inflows or resources related to the restricted assets.

*Unrestricted net position* – All other remaining net position that does not meet the definition of “restricted” and is available for general use by the District.

In the fund financial statements, governmental fund equity is classified in the following categories:

*Non-Spendable* – Includes items not immediately converted to cash, such as prepaid items and inventory.

*Restricted* – Includes items that are restricted by external creditors, grantors, or contributors, or restricted by legal constitutional provisions.

*Committed* – Includes items committed by the District’s Board of Directors, by formal board action.

*Assigned* – Includes items assigned for specific purposes, authorized by the District’s Superintendent and/or Director of Business Services

*Unassigned* – This is the residual classification used for those balances not included in another category.

It is the District’s policy to first use restricted net position prior to the use of unrestricted net position when an expenditure is incurred for purposes for which both restricted and unrestricted net position are available.

**Budget**

A budget is prepared and legally adopted for each governmental fund type on the modified accrual basis of accounting. The budgetary basis of accounting is the same as accounting principles generally accepted in the United States of America for the governmental fund types, except capital outlay expenditures, including items below the District’s capitalization level, are budgeted by major function in governmental fund types. The resolution authorizing appropriations for each fund sets the level by which expenditures cannot legally exceed appropriations.

Appropriations are established at the major function level (instruction, support services, enterprise and community services, facilities acquisition and construction, debt service, operating contingency and transfers) for each fund. Unexpected additional resources may be added to the budget through the use of a supplemental budget and appropriation resolution.

**DOUGLAS COUNTY SCHOOL DISTRICT NO. 19**  
**Notes to Basic Financial Statements**  
**Year Ended June 30, 2017**

**Note 1 – Summary of Significant Accounting Policies (continued)**

**Budget (continued)**

Supplemental budgets less than 10% of a fund's original budget may be adopted by the Board at a regular meeting. A supplemental budget greater than 10% of a fund's original budget requires hearings before the public, publication in newspapers and approval by the Board. Original and supplemental budgets may be modified by the use of appropriation transfers within a fund between the levels of control (major function levels) with Board approval. Appropriations lapse at the end of each fiscal year.

During the fiscal year ended June 30, 2017, the district was in compliance with Local Budget Law, except in the Special Revenue Fund in the Support Services category which was overspent by \$122,989.

**Use of Estimates**

The preparation of basic financial statements, in conformity with accounting principles generally accepted in the United States of America, requires management to make estimates and assumptions that effect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the basic financial statements and reported amounts of revenues and expenses/expenditures during the reporting period. Actual results could differ from those estimates.

**New GASB Pronouncements Adopted**

During the fiscal year ended June 30, 2017, the District implemented the following GASB Pronouncements:

GASB Statement No. 72, *Fair Value Measurement and Application*. Issued February 2015 this statement establishes accounting and financial reporting standards for fair value measurements, the level of fair value hierarchy, and valuation techniques. GASB Statement No. 72 was implemented for the City for fiscal year ending June 30, 2016. Since the City invests in short-term investments that are traded in active markets, implementation did not result in a change in valuation; but note III.A. Cash and Investments has been modified to provide the new disclosures required by this Statement.

GASB Statement No. 73, supersedes certain paragraphs and footnotes of GASB Statement No. 25, *Financial Reporting for Defined Benefit Pension Plans and Note Disclosures for Defined Contributions Plans*; and all remaining requirements of GASB Statement No. 27, *Accounting for Pensions by State and Local Government Employers*. The principal objective of GASB 73 is to improve the usefulness of information for decisions made by the various users of the general purpose external financial reports of governments whose employees (both active and inactive) are provided with pensions that are not within the scope of Statement No. 68 (i.e. Stepend Benefits). GASB 73 is generally effective for financial statements for fiscal years beginning after June 15, 2016.

GASB Statement No. 75, supersedes GASB Statement No. 45, *Accounting and Financial Reporting by Employers for Postemployment Benefits Other Than Pensions*; and GASB Statement No. 57, *OPEB Measurements by Agent Employers and Agent Multiple-Employer Plans*. The principal objective of GASB 75 is to improve the usefulness of information for decisions made by the various users of the general purpose external financial reports of governments whose employees (both active and inactive) are provided with postemployment benefits other than pensions (i.e. Medical Benefit). GASB 75 is effective for financial statements for fiscal years beginning after June 15, 2017 (earlier application was encouraged).

**Notes to Basic Financial Statements**  
**Year Ended June 30, 2017**

**Note 1 - Summary of Significant Accounting Policies (continued)**

**New GASB Pronouncements Adopted (continued)**

GASB Statement No. 77, *Tax Abatement Disclosures*. Issued August 2015, this statement requires governments that enter into tax abatement agreements to disclose information about those agreements. GASB Statement No. 77 was implemented by the City for the fiscal year ended June 30, 2017.

**Future GASB Pronouncements**

The following GASB pronouncements have been issued, but are not effective as of June 30, 2017:

GASB Statement No. 80, *Blending Requirements for Certain Component Units*. Issued January 2016, this statement improves financial reporting by clarifying the financial statement presentation requirements for certain component units.

GASB Statement No. 81, *Irrevocable Split-Interest Agreements*. Issued March 2016, this statement improves accounting and financial reporting for irrevocable split-interest agreements by providing recognition and measurement guidance for situations in which a government is a beneficiary of the agreement. GASB 81 will be effective for the District, fiscal year ending June 30, 2018.

GASB Statement No. 83, *Certain Asset Retirement Obligations*. Issued November 2016, this statement addresses accounting and financial reporting for certain asset retirement obligations (AROs). GASB 83 will be effective for the District, fiscal year ending June 30, 2019.

GASB Statement No. 84, *Fiduciary Activities*. Issued January 2017, this statement establishes criteria for identifying fiduciary activities of all state and local governments. GASB 84 will be effective for the District, fiscal year ending June 30, 2020.

GASB Statement No. 85, *Omnibus 2017*. Issued March 2017, this Statement is to address practice issues that have been identified during implementation and application of certain GASB Statements. This Statement addresses a variety of topics including issues related to blending component units, goodwill fair value measurement and application, and postemployment benefits (pensions and other postemployment benefits [OPEB]). Specifically, this Statement addresses the following topics:

- Blending a component unit in circumstances in which the primary government is a business-type activity that reports in a single column for financial statement presentation
- Reporting amounts previously reported as good will and "negative" goodwill
- Classifying real estate held by insurance entities
- Measuring certain money market investments and participating interest-earning investment contract at amortized cost
- Timing of the measurement of pension or OPEB liabilities and expenditures recognized in financial statements prepared using the current financial resources measurement focus
- Recognizing on-behalf payments for pensions or OPEB in employer financial statements
- Presenting payroll-related measures in required supplementary information for purposes of reporting by OPEB plans and employers that provide OPEB
- Simplifying certain aspects of the alternative measurement method for OPEB
- Accounting and financial reporting for OPEB provided through certain multiple-employer defined benefit OPEB plans.

GASB Statement No. 85 will be effective for the District, fiscal year ending June 30, 2018.

**Notes to Basic Financial Statements**  
**Year Ended June 30, 2017**

**Note 1 - Summary of Significant Accounting Policies (continued)**

**Future GASB Pronouncements (continued)**

GASB Statement No. 86, *Certain Debt Extinguishment Issues*. Issued May 2017, the purpose of this Statement is to improve consistency in accounting and financial reporting for in-substance defeasance of debt by providing guidance for transactions in which cash and other monetary assets acquired with only existing resources-resources other than the proceeds of refunding debt-are placed in an irrevocable trust for the sole purpose of extinguishing debt. This Statement also improves accounting and financial reporting for prepaid insurance on debt that is extinguished and notes to financial statements for debt that is deceased in substance. GASB Statement No. 86 will be effective for the District, fiscal year ending June 30, 2018.

GASB Statement No. 87, *Leases*. Issued June 2017 to better meet the information needs of financial statement users by improving accounting and financial reporting for leases by governments and increases the usefulness of governments' financial statements. Under this Statement, a lessee is required to recognize a lease liability and an intangible right-to-use lease asset, and a lessor is required to recognize a lease receivable and a deferred inflow of resources, thereby enhancing the relevance and consistency of information about governments' leasing activities. GASB Statement No. 87 will be effective for the District for fiscal year ending June 30, 2021.

The District is currently evaluating whether or not the above listed new GASB pronouncements will have a significant impact to the District's financial statements.

**Note 2 – New Pronouncements Implemented and Restatements of Beginning Net Position**

For the year ended June 30, 2017, the District implemented GASB Statement No. 73, *Accounting and Financial Reporting for Pensions and Related Assets That Are Not within the Scope of GASB 68, and Amendments to Certain Provisions of GASB Statement 67 and 68*, and GASB Statement No. 75, *Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions*. GASB 73 is generally effective for financial statements for fiscal years beginning after June 15, 2016, and GASB 75 is effective for financial statements for fiscal years beginning after June 15, 2017 (earlier application was encouraged).

The implementation of GASB 73 and 75 resulted in a restatement of beginning net position in order to recognize the District's Stipend Pension Liability, and the District's Postemployment Medical Benefit Liability (Explicit and Implicit). The result of the restatement was a \$1,109,815 reduction in the beginning net position, a \$27,301 addition to the Stipend Pension Liability, and a \$1,082,514 addition to the Other Post Employment Medical Benefit Liability.

In addition to the restatement associated with the implementation of GASB 73 and 75, the District identified an error in relation to its accounting for its 2002 and 2003 Pension Obligations. The result of the restatement was a \$2,180,611 reduction in the beginning net position and an increase to its accrued interest liability.

**Note 3 – Equity in Pooled Cash and Investments**

Cash and investments are comprised of the following as of June 30, 2017

Petty cash	\$ 272
Carrying amount of demand deposits	871,837
Carrying amount of investments	2,604,645
Total deposits with financial institutions	<u>\$3,476,754</u>

**DOUGLAS COUNTY SCHOOL DISTRICT NO. 19**  
**Notes to Basic Financial Statements**  
**Year Ended June 30, 2017**

**Note 3 – Equity in Pooled Cash and Investments (continued)**

Cash and investments are shown on the basic financial statements as:

Statement of Net Position	
Cash and Investments	\$ 3,033,644
Assets held by trustee	443,110
	<u>\$ 3,476,754</u>

**Deposits.** Deposits with financial institutions are comprised of bank demand deposits. For deposits in excess of federal depository insurance currently limited to balances less than \$250,000; Oregon Revised Statute 295 effective July 1, 2008 created a multiple financial institution collateral pool and eliminated Certificates of Participation. As a result, all balances over the \$250,000 FDIC limit are collateralized. As of June 30, 2017, the carrying amounts of the District deposits in various qualifying financial institutions were \$871,837 and the bank balances were \$1,006,207. Of this balance, \$756,207 was not covered by the federal depository insurance.

As required by Oregon Revised Statutes, Chapter 295, deposits in excess of insurance limits were held at qualified depositories for public funds.

Effective July 1, 2008, House Bill 2901 created a shared liability structure for participating bank depositories in Oregon. Barring any exceptions, a qualifying bank depository is required to pledge collateral valued at least 10% of their quarter-end public fund deposits if they are well capitalized, 25% of the quarter-end public fund deposits if they are adequately capitalized, or 110% of the quarter-end public fund deposits if they are undercapitalized or assigned to pledge 110% by the Office of State Treasurer. In the event of a bank failure, the entire pool of collateral pledged by all qualified Oregon public bank depositories is available to repay the deposits of public funds of governmental entities.

*Custodial Credit Risk.* Custodial credit risk for deposits is the risk that, in the event of a bank failure, a government's deposits may not be returned to it. The District does not have a formal deposit policy for custodial credit risk.

**Investments.** Douglas County School District No. 19 has invested funds in the State Treasurer's Oregon Short-term Fund Local Government Investment Pool. The Oregon Short-term Fund is the local government investment pool for local governments and was established by the State Treasurer. It was created to meet the financial and administrative responsibilities of federal arbitrage regulations. The investments are regulated by the Oregon Short-Term Fund Board and approved by the Oregon Investment Council (ORS 294.805 to 294.895). Local Government Investment Pool (LGIP) is an external investment pool managed by the State Treasurer's office, which allow governments within the state to pool their funds for investment purposes. The amounts invested in the pool are not classified by risk categories because they are not evidenced by securities that exist in physical or book entry form as defined by GASB statement No. 40. LGIP is not rated.

In addition, the Oregon State Treasury LGIP distributes investment income on an amortized cost basis and participants' equity in the pool is determined by the amount of participant deposits, adjusted for withdrawals and distributed income. Accordingly, the adjustment to fair value would not represent an expendable increase in the District's cash position.

Investments in the Oregon State Treasury LGIP are made under the provisions of ORS 194.180. These funds are held in the District's name and are not subject to collateralization requirements or ORS 295.015. Investments are stated at amortized cost, which approximated fair value.

**DOUGLAS COUNTY SCHOOL DISTRICT NO. 19**  
**Notes to Basic Financial Statements**  
**Year Ended June 30, 2017**

**Note 3 – Equity in Pooled Cash and Investments (continued)**

State of Oregon statutes restrict the types of investments in which the District may invest. Authorized investments include obligations of the United States Government and its agencies, certain bonded obligations of Oregon municipalities, bank repurchase agreements, bankers' acceptances, time certificates of deposit, certain commercial paper, and the State of Oregon Treasurer's Local Government Investment Pool. As of June 30, 2017 and for the year then ended, the District was in compliance with the aforementioned State of Oregon statutes.

*Credit Risk.* State Statutes authorize the District to invest primarily in general obligations of the U.S. government and its agencies, certain bonded obligations of Oregon municipalities, bank repurchase agreements, banker's acceptances, certain commercial papers, and the State Treasurer's Investment Pool, among others. The District has no formal investment policy that further restricts its investment choices.

*Concentration of Credit Risk.* The District is required to provide information about the concentration of credit risk associated with its investments in one issuer that represents 5 percent or more of the total investments, excluding investments in external investment pools or those issued and explicitly guaranteed by the U.S. Government. The District has no such investments.

*Interest Rate Risk.* The District has no formal investment policy that explicitly limits investment maturities as a means of managing its exposure to fair value loss arising from increasing interest rates.

*Disclosures about Fair Value of Assets.* Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Fair value measurements must maximize the use of observable inputs and minimize the use of unobservable inputs. There is a hierarchy of three levels of inputs that may be used to measure fair value:

Level 1 - Unadjusted inputs using quoted prices in active markets for identical investments.

Level 2 - Other significant observable inputs other than level 1 prices, including, but are not limited to, quoted prices for similar investments, inputs other than quoted prices that are observable for investments (such as interest rates, prepayment speeds, credit risk, etc.) or other market corroborated inputs.

Level 3 - Significant inputs based on the best information available in the circumstances, to the extent observable inputs are not available.

Investments Measured at Fair Value:	Totals as of 6/30/2017	Level One	Level Two	Level Three	Not Measured at Fair Value

Total	<u><u>\$ 432,708</u></u>

**Note 6 – Deferred Inflows / Unearned Revenues**

Governmental funds, under the modified accrual basis of accounting, accrue deferred revenue for revenue amounts unearned or unavailable. Government-wide reporting use full accrual accounting and report only unearned revenue. Unavailable revenue (deferred inflows) result in connection with receivables for revenues that are not considered to be available to liquidate liabilities of the current period. Unearned revenue result in connection with resources that have been received, but not yet earned. At the end of the current fiscal year the various components of unavailable (deferred inflow) and unearned revenue in the governmental funds consisted of the following:

	<u>Unavailable</u>	<u>Unearned</u>	<u>Total</u>
General Fund			
Property Taxes	\$ 298,597	\$ -	\$ 298,597

**Note 9 – Long-Term Debt**

**Limited Tax Pension Bond – 2002**

On October 31, 2002, Douglas County School District No. 19 issued bonds as a part of the Oregon School Boards Association Limited Tax Pension Bond Pool. Certain Oregon school districts and education service districts issued limited tax obligations (Pension Obligation), the proceeds of which were used to finance a portion of the estimated unfunded actuarial liability of each issuer with the Oregon Public Employees Retirement System (PERS). The full faith and credit of the District was pledged for the punctual payment of the principal of and interest on its Pension Obligation, and debt service on the Pension Obligation is not subject to annual appropriation. The Pension Obligation is further secured by an Intercept Agreement under which an amount equal to the debt service on each issuer's Pension Obligation will be diverted from State Education Revenues.

The 2002A Obligations were issued in the aggregate original principal amount of \$6,393,627. Interest on the 2002A Obligations will be payable only at maturity (maturity dates range from 6/30/2004 to 6/30/2020), and will be compounded semiannually (for the accreted value of the Obligations of each maturity as of each June 30 and December 30). Interest on the 2002A Obligations ranges between 2.06% and 6.10% based upon the maturity date. The 2002A Obligations were not subject to optional prepayment prior to maturity. Accrued interest associated with the 2002A deferred interest obligations was \$557,948 at June 30, 2017.

**Limited Tax Pension Bond – 2002 (continued)**

On January 31, 2012, the District participated in a partial refunding of its Limited Tax Pension Bond -2002, as part of the Oregon School Board Association's Limited Tax Pension Bond Pool. This partial refunding was for the 2021 year for \$450,000. The District represents 2.05% of the aggregate principal amount of the 2012 Obligation. The interest rate for this refunded portion is 2.75% versus 6.10%. Interest paid for the fiscal year was \$12,375.

The Limited Tax Pension Bond - 2002 schedule does not include this refunding.

**Limited Tax Pension Bond – 2003**

On April 21, 2003, Douglas County School District No. 19 participated in a second Limited Tax Pension Bond Pool. Certain Oregon school districts and education service districts issued limited tax obligations (Pension Obligation), the proceeds of which were used to finance a portion of the estimated unfunded actuarial liability of each issuer with the Oregon Public Employees Retirement System (PERS). The full faith and credit of the District was pledged for the punctual payment of the principal of and interest on its Pension Obligation, and debt service on the Pension Obligation is not subject to annual appropriation. The Pension Obligation is further secured by an Intercept Agreement under which an amount equal to the debt service on each issuer's Pension Obligation will be diverted from State Education Revenues.

**Limited Tax Pension Bond – 2003 (continued)**

The 2003 Obligations were issued in the aggregate original principal amount of \$6,776,652. Interest on the 2003 Obligations will be payable only at maturity (maturity dates range from 6/30/2004 to 6/30/2020), and will be compounded semiannually (for the accreted value of the Obligations of each maturity as of each June 30 and December 30). Interest on the 2003 Obligations ranges between 1.5% and 6.27% based upon the maturity date. The 2003 Obligations were not subject to optional prepayment prior to maturity. Accrued interest associated with the 2003 deferred interest obligations was \$1,466,009 at June 30, 2017.

**Qualified Zone Academy Bonds – 2005**

On August 30, 2005, the District issued Qualified Zone Academy Bonds (QZAB) in the amount of \$500,000. The bonds were purchased by Bank of America in accordance with Section 1397E of the Internal Revenue Code, and as such qualified for tax credits relating to the transaction. The bond proceeds must be used to provide for facility preservation and major maintenance in accordance with the District's QZAB financing plan.

To qualify for use of the QZAB proceeds, individual schools must qualify by meeting federal guidelines for certain economic demographics. The primary uses of the funds will be for renovations of the secondary schools in the District. In addition, initial funding for SB 1149 energy efficiency projects will be provided by QZAB proceeds so that projects can move forward in a timely manner. As SB 1149 funds become available in future years, they will then be utilized to repay a portion of the QZAB debt.

As a result of the structure of the QZAB issue and the Bank tax credits, the District will be required to repay \$412,864 in total payments over the 16-year term. The difference between the bond proceeds in the amount of \$500,000 and the repayment of \$412,864 was recognized during the year of issuance.

The District will make annual principal payments in the amount of \$25,804 through 2022. The agreement bears no interest and imputed interest of 2 percent was considered immaterial to the financial statements. The payments will be placed in escrow at the purchaser's discretion, and principal payments and guaranteed interest payments on the escrow will be applied to the District obligation.

On October 12, 2010, the District issued Qualified School Construction Bonds (QSCB) in the amount of \$500,000. The monies were used for repairs and upgrades and weatherization projects through the District. The QSCB's are eligible to receive subsidy payments from the United States Treasury. The District plans to apply any subsidy payments received to offset the interest component of the financing, but those subsidy payments are not pledged for this purpose. Interest is payable semi-annually each December 31 and June 30, commencing June 30, 2013. Final maturity on these bonds is June 30, 2027. The District will receive approximately \$212,000 in direct subsidy payments from the United States Treasury over the life of the bond. Interest paid for the fiscal year was \$16,665.

***Single-Employer Defined Benefit Health Care Plan –***

**Plan Description** – The District maintains a single-employer defined benefit OPEB plan that provides post-employment health benefits to eligible employees and their spouses.

Different contracts govern the employees.

Eligible administrative and licensed staff must be at least 58 years of age and have at least fifteen years of service with the District. Eligible confidential/central office and supervisors/directors must be at least 58 years of age with at least fifteen years of service with the District. Monthly payments continue until the earlier of the retiree's age 62 (age 65 for classified retirees), or death.

Benefits for administrative and supervisors/directors include employee only medical coverage. Eligible classified participants are eligible for \$400 per month. Confidential/central office employees are eligible for full family medical, dental and vision coverage. Licensed participants are eligible for \$200 per month. Certain other retirees have special arrangements with the District for benefits. Administrative and licensed retirees are required to be available to volunteer fifteen days of work in order to receive full benefits.

In addition the District's post-retirement healthcare plan was established in accordance with Oregon Revised Statutes (ORS) 243.303, which requires that all eligible retirees are allowed to continue receiving health insurance benefits, at their cost, until age 65 or they become otherwise eligible for Medicare. ORS stipulate that for the purpose of establishing healthcare premiums, the rate must be based on all plan members, including both active employees and retirees. There requirement to make available to retirees (at the retirees own cost) access in to the healthcare plan has an implicit cost to the district.

**Funding Policy** – The benefits from the single-employer defined benefit OPEB plan are paid by the District based on bargaining agreement language and contributions by employees are also required. The plan is not accounted for in a pension trust fund; therefore designated funds are not legally restricted to pay future benefits. The benefits from the healthcare plan established in accordance with ORS 243.303 are paid by the retired employees on a self-pay basis and the required contribution is based on projected pay-as-you go financing requirements. There is no obligation on the part of the District to fund these benefits in advance. The District did not establish an irrevocable trust (or equivalent arrangement) to account for the plan.

**Employees Covered by Benefit Terms** – The explicit benefit for the single-employer defined benefit OPEB plan was ceased to licensed employees entering employment subsequent to September 1, 1990. As a result, the total plan members receiving the explicit benefit will decrease over time. At June 30, 2017, the following employees were covered by the explicit benefit terms:

Inactive employees or beneficiaries currently receiving benefit payments	14
Active plan members	129
	<u>143</u>

**Total OPEB Liability**

The districts total OPEB liability of \$1,140,300 was measured as of June 30, 2017, and was determined by an actuarial valuation date as of July 1, 2016.

**Actuarial Assumptions and Other Inputs**

The total OPEB liability in the actuarial valuation was determined using the following actuarial assumptions and other inputs, applied to all periods included in the measurement, unless otherwise specified:

<b>Input</b>	<b>Assumption</b>

***Retirement Health Insurance Account***

**Plan Description-** As a member of Oregon Public Employees Retirement System (OPERS), the District contributes to the Retirement Health Insurance Account (RHIA) for each of its eligible employees. RHIA is a cost-sharing multiple-employer defined benefit other post-employment benefit plan administered by OPERS. RHIA pays a monthly contribution toward the cost of Medicare companion health insurance premiums of eligible retirees. Oregon Revised Statute (ORS) 238.420 established this trust fund. Authority to establish and amend the benefit provisions of RHIA reside with the Oregon Legislature. The plan is closed to new entrants after January 1, 2004.

**DOUGLAS COUNTY SCHOOL DISTRICT NO. 19**  
**Notes to Basic Financial Statements**  
**Year Ended June 30, 2017**

**Note 10 – Postemployment Benefits Other Than Pensions (OPEB) (continued)**

***Retirement Health Insurance Account (continued)***

OPERS issues a publicly available financial report that includes financial statements and required supplementary information. That report may be obtained by writing to Oregon Public Employees Retirement System, PO box 23700, Tigard, OR 97281-3700.

***Funding Policy-*** Because RHIA was created by enabling legislation (ORS 238.420), contribution requirements of the plan members and the participating employers were established and may be amended only by the Oregon Legislature. ORS require that an amount equal to \$60 dollars or the total monthly cost of Medicare companion health insurance premiums coverage, whichever is less, shall be paid from the Retirement Health Insurance Account established by the employer, and any monthly cost in excess of \$60 dollars shall be paid by the eligible retired member in the manner provided in ORS 238.410. To be eligible to receive this monthly payment toward the premium cost the member must: (1) have eight years or more of qualifying service in PERS at the time of retirement or receive a disability allowance as if the member had eight years or more of creditable service in PERS, (2) receive both Medicare Parts A and B coverage, and (3) enroll in a PERS-sponsored health plan. A surviving spouse or dependent of a deceased PERS retiree who was eligible to receive the subsidy is eligible to receive the subsidy if he or she (1) is receiving a retirement benefit or allowance from PERS or (2) was insured at the time the member died and the member retired before May 1, 1991.

Participating school districts are contractually required to contribute to RHIA at a rate assessed each year by OPERS, and the District currently contributes 0.49% of annual covered OPERF payroll and 0.10% of OPSRP payroll. The OPERS Board of Trustees sets the employer contribution rates based on the annual required contribution of the employers (ARC), an amount actuarially determined in accordance with the parameters of GASB Statement 45.

The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and amortize any unfunded actuarial liabilities (or funding excess) of the plan over a period not to exceed thirty years. The District's contributions to RHIA for the years ended June 30, 2015, 2016 and 2017 were \$37,914, \$31,126, and \$32,370, respectively, which equaled the required contributions each year.

**Note 11 – Pension and Retirement Plans**

***Early Retirement Stipend Pension Plan –***

***Plan Description*** - The District maintains a single-employer defined benefit pension early retirement supplemental plan for eligible teachers and administrators of the District (not administered through a trust). Different contracts govern the employees. Eligible administrative and licensed retirees must be at least 58 years of age and have at least fifteen years of service with the District. Licensed employees must have been hired by the District on or before September 1, 1990 to be eligible.

For both classes of retirees, the eligible benefit amount is \$300 per month. However, retirees are required to be available to volunteer fifteen days of work in order to receive full benefits. Monthly payments continue until the earlier of the retiree's age 62 or death. Confidential and Classified employees are not eligible.

***Funding Policy*** – The benefits from this program are fully paid by the District and, consequently, no contributions by employees are required. The District funds this benefit as it comes due and the amount paid by the District for the benefit for the period ended June 30, 2017 was \$265. There are no assets accumulated in a trust.

**Plan Description -**

There are currently two programs within OPERS, with eligibility determined by the date of employment. Those employed prior to August 29, 2003 are OPERS Program members, and benefits are provided based on whether a member qualifies for Tier One or Tier Two described below. Those employed on or after August 29, 2003 are Oregon Public Service Retirement Plan (OPSRP) Program members. OPSRP is a hybrid retirement plan with two components: 1) the Pension Program (defined benefit; established and maintained as a tax-qualified governmental defined benefit plan), and 2) the Individual Account Program (IAP) (defined contribution; established and maintained as a tax-qualified governmental defined contribution plan).

The ORS Chapter 238 Defined Benefit Plan was closed to new members hired on or after August 29, 2003. In 1995, the Oregon Legislature created a second tier of benefits for those who became OPERS Program members after 1995 but before August 29, 2003. The second tier does not have the Tier One assumed earnings rate guarantee.

Beginning January 1, 2004, all employees who were active members of OPERS became members of the OPSRP IAP Program. OPERS plan member contributions (the employee contribution, whether made by the employee or "picked-up" by the employer) go into the IAP portion of OPSRP. OPERS plan members retain their existing OPERS accounts; however, member contributions after January 1, 2004 are deposited in the member's IAP, not into the member's OPERS account.

**Plan Benefits -**

All benefits of the System are established by the legislature pursuant to Oregon Revised Statute (ORS) Chapter 238 and 238A.

***Tier One/Tier Two Retirement Benefit (Chapter 238)***

*Pension Benefits* - The OPERS retirement allowance is payable monthly for life. It may be selected from 13 retirement benefit options. These options include survivorship benefits and lump-sum refunds. The basic benefit is based on years of service and final average salary. A percentage (1.67 percent for general service employees) is multiplied by the number of years of service and the final average salary. Benefits may also be calculated under a formula plus annuity (for members who were contributing before August 21, 1981) or a money match computation if a greater benefit results.

A member is considered vested and will be eligible at minimum retirement age for a service retirement allowance if he or she has had a contribution in each of five calendar years or has reached at least 50 years of age before ceasing employment with a participating employer. General Service employees may retire after reaching age 55. Tier One general service employee benefits are reduced if retirement occurs prior to age 58 with fewer than 30 years of service. Tier Two members are eligible for full benefits at age 60. The ORS Chapter 238 Defined Benefit Pension Plan was closed to new members hired on or after August 29, 2003.

*Death Benefits* - Upon the death of a non-retired member, the beneficiary receives a lump-sum refund of the member's account balance (accumulated contributions and interest). In addition, the beneficiary will receive a lump-sum payment from employer funds equal to the account balance, provided one or more of the following conditions are met:

- Member was employed by a OPERS employer at the time of death,
- Member died within 120 days after termination of OPERS-covered employment,
- Member died as a result of injury sustained while employed in a OPERS-covered job, or
- Member was on an official leave of absence from a OPERS-covered job at the time of death.

*Disability Benefits* - A member who has accrued 10 or more years of retirement credits before the member becomes disabled or a member who becomes disabled due to job-related injury shall receive a disability benefit of 45% of the member's salary determined as of the last full month of employment before the disability occurred.

*Benefit Changes After Retirement* – Members may choose to continue participation in a variable equities investment account after retiring and may experience annual benefit fluctuations due to changes in the market value of equity investments.

Under ORS 238.360 monthly benefits are adjusted annually through cost-of-living changes (COLA). The COLA is capped at 2.0%.

***OPSRP Pension Program (Chapter 238A)***

The ORS Chapter 238A Defined Benefit Pension Program provides benefits to members hired on or after August 29, 2003.

*Pension Benefits* - This portion of OPSRP provides a life pension funded by employer contributions. Benefits are calculated with the following formula for members who attain normal retirement age:

*General Service* - 1.5 percent is multiplied by the number of years of service and the final average salary. Normal retirement age for general service members is age 65, or age 58 with 30 years of retirement credit.

A member of the pension program becomes vested on the earliest of the following dates: the date the member completes 600 hours of service in each of five calendar years, the date the member reaches normal retirement age, and, if the pension program is terminated, the date on which termination becomes effective.

*Death Benefits* - Upon the death of a non-retired member, the spouse or other person who is constitutionally required to be treated in the same manner as the spouse receives for life 50 percent of the pension that would otherwise have been paid to the deceased member.

*Disability Benefits* - A member who has accrued 10 or more years of retirement credits before the member becomes disabled or a member who becomes disabled due to job-related injury shall receive a disability benefit of 45 percent of the member's salary determined as of the last full month of employment before the disability occurred.

*Benefit Changes After Retirement* - Under ORS 238A.210, monthly benefits are adjusted annually through cost-of-living adjustment (COLA). The COLA is capped at 2.0%.

**Contributions –**

PERS' funding policy provides for periodic member and employer contributions at rates established by the Public Employees Retirement Board, subject to limits set in statute. The rates established for member and employer contributions were approved based on the recommendations of the System's third-party actuary.

The District's employer contributions for the year ended June 30, 2017 were \$430,237, excluding amounts to fund employer specific liabilities. The contribution rates in effect for the fiscal year ended June 30, 2017 for each pension program were: Tier1/Tier 2 – 0.53% and OPSRP general service – 0.45%.

**Pension Plan Comprehensive Annual Financial Report (CAFR) –**

Oregon PERS produces an independently audited CAFR which can be found at:

**Note 11 – Pension and Retirement Plans (continued)**

**Actuarial Valuation -**

The employer contribution rates effective July 1, 2015, through June 30, 2017, were set using the entry age normal actuarial cost method. Under this cost method, each active member's entry age present value of projected benefits is allocated over the member's service from their date of entry until their assumed date of exit, taking into consideration expected future compensation increases.

**Actuarial Methods and Assumptions Used in Developing Total Pension Liability –**

Valuation date	December 31, 2014
Measurement date	June 30, 2016
Experience study	2014, published September 2015
Actuarial cost method	Entry age normal
Actuarial assumptions:	
Inflation rate	2.50 percent (reduced from 2.75%)
Long-term expected rate of return	7.50 percent (reduced from 7.75%)
Discount rate	7.50 percent (reduced from 7.75%)
Projected salary increases	3.50 percent (reduced from 3.75%)
Cost of living adjustments (COLA)	Blend of 2.00% COLA and graded COLA (1.25%/0.15%) in accordance with <i>Moro</i> decision; blend based on service.
Mortality	<p><b><i>Healthy retirees and beneficiaries:</i></b>  RP-2000 Sex-distinct, generational per Scale BB, with collar adjustments and set-backs as described in the valuation.</p> <p><b><i>Active members:</i></b>  Mortality rates are a percentage of healthy retiree rates that vary by group, as described in the valuation.</p> <p><b><i>Disabled retirees:</i></b>  Mortality rates are a percentage (70% for males, 95% for females) of the RP-2000 Sex-distinct, generational per Scale BB, disabled mortality table.</p>

Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of events far into the future. Actuarially determined amounts are subject to continual revision as actual results are compared to past expectations and new estimates are made about the future. Experience studies are performed as of December 31 of even numbered years. The methods and assumptions shown above are based on the 2014 Experience Study which reviewed experience for the four-year period ending on December 31, 2014.

**Year Ended June 30, 2017**

**Note 11 – Pension and Retirement Plans (continued)**

**Actuarial Valuations – (continued)**

**Discount Rate –**

The discount rate used to measure the total pension liability was 7.5 percent for the Defined Pension Plan. The projection of cash flows used to determine the discount rate assumed that contributions from plan members and those of the contributing employers are made at the contractually required rates, as actuarially determined. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments for the Defined Benefit Pension Plan was applied to all periods of projected benefit payments to determine the total pension liability.

**Investment Rate of Return –**

To develop an analytical basis for the selection of the long-term expected rate of return assumption, in July 2015 the OPERS Board reviewed long-term assumptions developed by both Milliman's capital market assumptions team and the Oregon Investment Council's (OIC) investment advisors. Each asset class assumption is based on a consistent set of underlying assumptions, and includes adjustment for the inflation assumption. These assumptions are not based on historical returns, but instead are based on a forward-looking capital market economic model. For more information on the Plan's portfolio, assumed asset allocation, and the long-term expected rate of return for each major asset class, calculated using both arithmetic and geometric means; see PERS' audited financial statements at:

[http://www.oregon.gov/pers/docs/financial\\_reports/2016\\_cafr.pdf](http://www.oregon.gov/pers/docs/financial_reports/2016_cafr.pdf).

**Pension Liabilities/Assets, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions -**

At June 30, 2017, the District reported a net pension liability of \$1,106,156 for its proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2016, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of December 31, 2014. The District's proportion of the net pension liability was based on a projection of the District's long-term share of contributions to the pension plan relative to the projected contributions of all participating employers, actuarially determined. At June 30, 2017, the District's proportion was approximately 0.00737 percent.

For the year ended June 30, 2017, the District recognized pension expense of \$215,083. Pension expense was generated during the measurement period primarily as a result of less than anticipated investment returns at the OPERS level. The \$215,083 was treated as an increase of payroll related expense in the Statement of Activities and allocated to Instruction, Supporting Services, and community Services using allocation percentages of 55%, 42% and 3%, respectively.

**Pension Liabilities/Assets, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions – (continued)**

At June 30, 2017, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual experience	\$ 36,596	\$ -
Changes of assumptions	235,916	-
Net difference between projected and actual earnings investments	218,530	-

(\$124) reported as deferred inflows of resources related to pensions resulting from District contributions subsequent to the measurement date will be recognized as a decrease to the net pension liability in the year ended June 30, 2017.

Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense (income) as follows:

Year Ended June 30, 2017	Deferred Outflow/Inflow of Resources (prior to post-
2018	\$ 168,069

**Sensitivity for the District's Proportionate Share of the Net Pension Liability to Changes in Discount Rate –**

The following presents the District's proportionate share of the net pension asset/(liability) calculated using the discount rate of 7.50 percent, as well as what the District's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage point lower (6.50 percent) or 1-percentage point higher (8.50 percent) than the current rate:

District's Net Pension Asset/(Liability)	1% Decrease (6.50%)	Current Discount Rate (7.50%)	1% increase (8.50%)
Defined Benefit Pension Plan	\$ (1,786,073)	\$ (1,106,156)	\$ (537,864)

***Defined Contribution Plan - Individual Account Program (IAP)***

**Pension Benefits.** Participants in OPERS defined benefit pension plans also participate in their defined contribution plan. An IAP member becomes vested on the date the employee account is established or on the date the rollover account was established. All covered employees are required by State statute to contribute 6% of their salary to the plan. If the employer makes optional employer contributions for a member, the member becomes vested on the earliest of the following dates: the date the member completes 600 hours of service in each of five calendar years, the date the member reaches normal retirement age, the date the IAP is terminated, the date the active member becomes disabled, or the date the active member dies.

Upon retirement, a member of the OPSRP Individual Account Program (IAP) may receive the amounts in his or her employee account, rollover account, and vested employer account as a lump-sum payment or in equal installments over a 5, 10, 15, 20-year period or an anticipated life span option. Each distribution option has a \$200 minimum distribution limit.

**Death Benefits.** Upon the death of a non-retired member, the beneficiary receives in a lump sum the member's account balance, rollover account balance, and vested employer optional contribution account balance. If a retired member dies before the installment payments are completed, the beneficiary may receive the remaining installment payments or choose a lump-sum payment.

**Contributions.** During 2017, the District, as an employee benefit, paid the employees portion of the contribution. For 2017, the District paid \$465,577 for this contribution.

**Note 12 – Contingencies**

Amounts received or receivable from grantor agencies are subject to compliance audits by grantors or their representatives. The amount, if any, of expenditures which may be disallowed by the granting agencies cannot be determined at this time although the District expects such amounts, if any, to be immaterial.

The School District has elected, under the State Unemployment Act of July 1, 1974, to reimburse the State Employment Department for any claims paid. Reimbursements are made from the District's Unemployment Insurance Fund. The District is unable to determine at this time the amount of the contingent liability for potential unemployment insurance claims.

**DOUGLAS COUNTY SCHOOL DISTRICT NO. 19**  
**Notes to Basic Financial Statements**  
**Year Ended June 30, 2017**

**Note 13 – Current Vulnerability Due to Certain Concentrations**

The District's operations are concentrated within Douglas County. In addition, substantially all the District's revenues for continuing operations are from federal, state, and local government agencies. In the normal course of operations, the District receives grant funds from various Federal and State agencies. The grant programs are subject to audit by agents of the granting authority, the purpose of which is to ensure compliance with conditions precedent to the granting of funds. Any liability for reimbursement which may arise as the result of these audits is not believed to be material.

**Note 14 – Risk Management**

The District is exposed to various risks of loss related to torts; theft of, damage to and destruction of assets; errors and omissions; and natural disasters for which the District carries commercial insurance. Worker's compensation insurance is also provided through a commercial carrier. There has been no significant reduction in insurance coverage from the prior year and the District has not been required to pay any settlements in excess of insurance coverage during the past three fiscal years ending June 30, 2017.

**Note 15 – Tax Abatements**

As of June 30, 2017, Douglas county provides tax abatements through two programs: Non-Profit Low Income Rental Housing and Enterprise Zone.

**Non-Profit Low Income Rental Housing (ORS 307.540 to 307.548):**

The largest abatement program for the District is the Non-Profit Low Income Rental Housing. In 1985, Oregon legislature authorized a property tax exemption for low-income housing held by charitable, nonprofit organizations. The tax exemption is intended to benefit low-income renters by alleviating the property tax burden on those agencies that provide this type of housing. The qualifying property must be located within the City of Portland.

Charitable, nonprofit organizations that provide housing to low-income persons are eligible, and must be certified by the Internal Revenue Service as 501(c)(3) or (4) organization. Organizations must own or have a leasehold interest in the property or participate in a partnership as long as the non-profit organization is responsible for the day-to-day management of the property. Applicants who are leaseholders must have a signed leasehold agreement by the application deadline. Vacant land intended to be developed as low-income housing is also eligible for the exemption.

The property tax exemption applies only to the tax levy of a governing body that adopts the provisions of ORS 307.540 to 307.548.

**Enterprise Zone (ORS 285C.175):**

The Oregon Enterprise Zone program is a State of Oregon economic development program, that allows for property tax exemptions for up to five years. In exchange for receiving property tax exemption, participating firms are required to meet the program requirements set by state statute and the local sponsor. Prosper Portland, formerly known as the Portland Development Commission, is the local sponsor for the Portland Enterprise Zone program.

**DOUGLAS COUNTY SCHOOL DISTRICT NO. 19**  
**Notes to Basic Financial Statements**  
**Year Ended June 30, 2017**

**Note 15 – Tax Abatements (continued)**

The Enterprise Zone program provides qualified firms that will be making a substantial new capital investment within the defined enterprise zone, a waiver of 100% of the amount of real property taxes attributable to the new investment for a period of five years following completion of the new investment. Land or existing machinery or equipment is not tax exempt; therefore, there is no loss of current property tax levies to local taxing jurisdiction.

For the fiscal year ended June 30, 2017, South Umpqua School District did not have any taxes abated under these programs.

**Note 16 – Subsequent Events**

Management of the District has evaluated events and transactions occurring after June 30, 2017 through December 22, 2017, the date of the financial statements were available for issuance, for recognition and/or disclosure in the financial statements. There were no additional events and/or transactions that required recognition and disclosure in the financial statements, except as follows:

**Changes in OPERS Pension Plan Provisions Subsequent to Measurement Date**

As its July 28, 2017 meeting, the PERS Board lowered its effective “assumed rate” from 7.5% to 7.2% effective, January 1, 2018. The assumed rate is the rate of investment return (including inflation) that the PERS Fund’s regular account is expected to earn over the long term. Oregon Administrative Rule 459-007-0001(2) states that the assumed rate “means the actuarial assumed rate of return on investments as adopted by the Board for the most recent actuarial valuation.”

The lowered rate is expected to increase the PERS net pension liability by an estimated \$2.0 to \$2.4 billion. Of this increase, the District’s portion is estimated at \$147 thousand to \$176 thousand.

**Note 1 - Changes of Benefit Terms and Assumptions**

A summary of assumption changes implemented since the December 31, 2014 valuation are outlined briefly below. A comprehensive list of changes in methods and assumptions can be found in the 2014 Experience Study for the system, which was published on September 23, 2015, and can be found at: <http://www.oregon.gov/PERS/Documents/Financials/Actuarial/2015/Experience-Study.pdf>

**Changes in Actuarial Method and Allocation Procedures:**

General Service member weighting changed from 30% to 25% of proportional liability.

**Changes in Economic Assumptions:**

Inflation was lowered to 2.5%, and payroll growth was reduced from 3.75% to 3.5%. Investment return and interest crediting was reduced from 7.75% to 7.5%. With the implementation of GASB No. 67 and 68 this necessitated an explicit Tier 1/Tier 2 administrative expense assumption of \$33 million per year for December 31, 2014 and December 31, 2015. Health care cost inflation and implementation of the excise tax in 2018 was considered. Disability mortality tables were updated using the RP2000 generational tables, whereas RP2000 static tables were previously used. Rates for disability, retirement from active status, and termination were adjusted.

**Changes in Salary Increase Assumptions:**

Unused sick leave and vacation pay rates were adjusted. Retirement Health Insurance Account (RHIA) participation rate for healthy retirees was reduced from 45% to 38%. The RHIPA participation rate was changed from a uniform rate of 13% to a service-based table of rates.

**Other Information:**

This schedule is presented to illustrate required supplementary information for a 10 year period. The District adopted GASB 68 during fiscal 2014, as a result, only four years of information is presented.

**INDEPENDENT AUDITOR'S REPORT  
REQUIRED BY OREGON STATE REGULATIONS**

Board of Directors  
Douglas County School District No. 19  
Myrtle Creek, Oregon

We have audited the basic financial statements of Douglas County School District No. 19 (the District) as of and for the year ended June 30, 2017, and have issued our report thereon dated December 22, 2017. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller of the United States.

**Compliance**

As part of obtaining reasonable assurance about whether the District's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grants, including the provisions of Oregon Revised Statutes as specified in Oregon Administrative Rules 162-10-000 through 162-10-320 of the *Minimum Standards for Audits of Oregon Municipal Corporations*, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not the objective of our audit, and accordingly, we do not express such an opinion.

We performed procedures to the extent we considered necessary to address the required comments and disclosures but were not limited to the following:

- Deposit of public funds with financial institutions under ORS Chapter 295.
- Indebtedness limitations, restrictions and repayment.
- Budgets legally required under ORS Chapter 294.
- Insurance and fidelity under bonds in force or required by law.
- Programs funded from outside sources.
- Authorized investment of surplus funds (ORS Chapter 294).
- Public contracts and purchasing under ORS Chapters 279A, 279B, 279C.
- State school fund factors and calculation.

In connection with our audit, nothing came to our attention that caused us to believe the District was not in substantial compliance with certain provisions of laws, regulations, contracts, and grants, including the provisions of Oregon Revised Statutes as specified in Oregon Administration Rules 162-10-0000 through 162-10-0320 of the *Minimum Standards for Audits of Oregon Municipal Corporations*, except as disclosed in Note 1 of the financial statements.

**OAR 162-10-0230 Internal Control**

In planning and performing our audit, we considered the District's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the District's internal control over financial reporting.

### **Restrictions on Use**

This report is intended solely for the information and use of the Board of Directors and management of the District and the State of Oregon, Division of Audits and is not intended to be and should not be used by anyone other than these parties.

## **Items required by the Uniform Guidance**

**INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING  
AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL  
STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS**

Board of Directors  
Douglas County School District No. 19  
Myrtle Creek, Oregon

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities and each major fund of Douglas County School District No. 19 (the District) as of and for the year ended June 30, 2017 and the related notes to the financial statements, which collectively comprise the District's basic financial statements, and have issued our report thereon dated December 22, 2017.

**Internal Control Over Financial Reporting**

In planning and performing our audit of the financial statements, we considered the District's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we do not express an opinion on the effectiveness of the District's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or, significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

**Compliance and Other Matters**

As part of obtaining reasonable assurance about whether the District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion.

### **Purpose of this Report**

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

**INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR EACH  
MAJOR PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE  
REQUIRED BY THE UNIFORM GUIDANCE**

Board of Directors  
Douglas County School District No. 19  
Myrtle Creek, Oregon

**Report on Compliance for Each Major Federal Program**

We have audited Douglas County School District No. 19 (the District) compliance with the types of compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on each of the District's major federal programs for the year ended June 30, 2017. The District's major federal programs are identified in the accompanying schedule of findings and questioned costs.

**Management's Responsibility**

Management is responsible for compliance with the requirements of laws, regulations, contracts, and grants applicable to its federal programs.

**Auditor's Responsibility**

Our responsibility is to express an opinion on compliance for each of the District's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 US *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements of Federal Awards* (Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of the District's compliance.

**Opinion on Each Major Federal Program**

In our opinion, the District complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2017.

**Report on Internal Control Over Compliance**

Management of the District is responsible for establishing and maintaining effective internal control over compliance with types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the District's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on

compliance for each major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the District's internal control over compliance.

A *deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

DOUGLAS COUNTY SCHOOL DISTRICT NO. 19  
SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS  
YEAR ENDED JUNE 30, 2017

**Note A - Significant accounting policies**

The schedule of expenditures of federal awards includes the federal grant activity of the Douglas County School District and is presented on the accrual basis of accounting. The information in this schedule is presented in accordance with the requirements of the OMB Compliance Supplement, Audits of States, Local Governments, and Non-Profit Organizations. Therefore, some amounts presented in this schedule may differ from amounts presented in, or used in the preparation of, the financial statements.

**Note B - Food distribution**

Nonmonetary assistance is reported in the schedule at the fair market value of the commodities received and disbursed.

**Note C - Interest Subsidy Payment Received**

During 2005-2006 fiscal year, the District received a Qualified Zone Academy Bond for \$500,000. During 2010-2011 fiscal year, the District received a Qualified School Construction Bond for \$500,000. During the 2011-12 fiscal year, the District received a Qualified School Construction Bond for \$350,000. The Internal Revenue Service pays a portion of the interest due on the Qualified Zone Academy Bonds and the Qualified School Construction Bond. The amount is considered federal revenue; however, it does not have a CFDA number and therefore, is not included on the Schedule of Expenditures of Federal Awards. The amount of revenue and corresponding interest for the fiscal year ending June 30, 2017 is \$39,710.

**Note D - Subrecipients**

There were no awards passed through to subrecipients
